

100W 3-Port USB-C Fast Wall Charger with GaN Tech

100W PD Wall Charger comes with 2 USB-C port (PD 3.0) + 1 USB-A port (QC 3.0)

- Obtain the best charging performance with GaN (gallium nitride) Technology, it increases the charging efficiency up to 90%. With maximum of 100w power output, the MacBook Pro 16" can be fully charged in just 1.9 hours. Power Delivery 3.0 enables compatible devices to be charged faster than industry standard.
- Up to 100W USB-C charging speed to charge your MacBook pro 13" in less than 2 hours. Also compatible with Apple 20W PD and Samsung PPS 45W fast charging, charging iPhone 13 to 50% in half an hour, three times faster than the original 5W charger.
- Thanks to LVSUN intelligent power allocation technology, this GaN charger can power up to your AirPods, iPad, iPhone and Samsung galaxy s20 together. When more devices were connected, the power strip needs to choose the right quick charging protocol and split the power to each device, which will cause disconnection 2-3 times before entering quick charging, it's a safety measure.
- It is compatible with most USB-C devices such as MacBook Pro 16", Samsung, HP Spectre and others that support USB Power Delivery. Fast charging is available for iPhones when they are used with the original Apple USB-C to Lightning cable.
