CEL-FI GO STATIONARY REPEATER

THE CEL-FI REPEATER HAS BEEN TESTED, AUTHORISED AND APPROVED BY THE NETWORK PROVIDERS

The Cel-Fi GO Smart Repeater is the ideal product to boost and distribute a 3G/4G mobile signal within a building. Supporting voice and mobile internet for multiple mobile devices, boosting your indoor mobile coverage has never been easier.

- Designed for building applications giving 100dB of system gain
- Kits include external and internal antennas plus cables
- Australian Legal with Carrier tested and fully approved
- Superior design for not interfering with networks
- Locked to Service providers Mobile Network
- Band Selection on unit and via your phone app
- Bluetooth WAVE App for iPhone, Android & Computers

CEL-FI GO BUILDING REPEATER - VODAFONE

CEL-FI GO2 REPEATER HAS BEEN TESTED, AUTHORISED AND APPROVED BY VODAFONE TO USE WITH VODAFONE, TPG, IINET, REDBULL MOBILE, GOTALK AND MANY MORE

GO2 is dual band for operating on BOTH Vodafone's 3G and 4G networks.
VODAFONE REGIONAL COVERAGE NOT SUPPORTED
GO2 for Vodafone will not boost the Vodafone Regional network. You can tell you're using the Regional Network when 'Vodafone AU R' or 'Voda R' appears on your phone. This is due to the Regional Network roaming on a partners network.

Network	External Ant.	Internal Antenna	Code
Vodafone	*Required	Adhesive Mount	RPR-CF-00228
Vodafone	LPDA 11dBi	Wall Mount	RPR-CF-00237
Vodafone	LPDA 11dBi	Dome Antenna	RPR-CF-00291

KIT WITH OMNI & DOME ANTENNAS

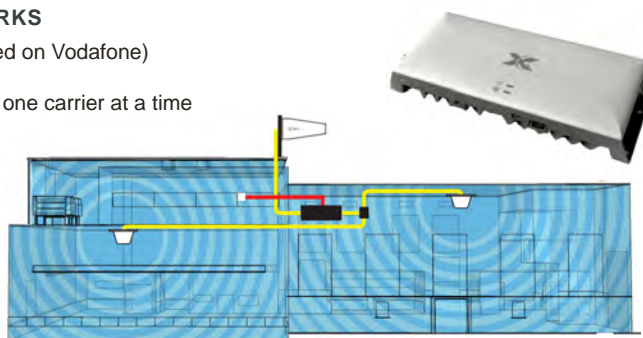

CEL-FI GO4 BUILDING REPEATER - CARRIER SWITCHED

SWITCHABLE TO SUIT TELSTRA, OPTUS OR VODAFONE NETWORKS

- 700L / 850 / 900 / 1800 / 2100 / 2600 MHz (Note: 700 band is not supported on Vodafone)
- 3G, 4G, VoLTE, NB-IoT, (5G Ready*)
- Carrier Switching using WAVE App between Telstra, Optus or Vodafone – one carrier at a time
- Up to 3000 m2 coverage area, Two band simultaneous relay
- Total System Relay Bandwidth – Up to 40 MHz

Type	External Ant.	Internal Antenna	Code
Standalone Unit	Required*	Built-In Box Lid	RPR-CF-00695
Building Pack	Omni 6dBi	Wall Mount Panel	RPR-CF-00730
Building Pack	Omni 6dBi	Dome Ceiling	RPR-CF-00731
Building Pack	LPDA 12/14dBi	Wall Mount Panel	RPR-CF-00732
Building Pack	LPDA 12/14dBi	Dome Ceiling	RPR-CF-00733

Note: GO4 has the future capability to boost 5G as the feature is there but not enabled as it has not been approved by the carriers. When it does become approved, users will be able to run an update through the app which will enable the 5G functionality on the GO4 device.

□ Cel-Fi Cellular Reception Repeater □ Vehicle Cel-Fi Mobile

CEL-FI GO MOBILE REPEATERS

THE CEL-FI REPEATER HAS BEEN TESTED, AUTHORISED AND APPROVED BY THE NETWORK PROVIDERS

Nextivity's Cel-Fi GO is a cost-effective and intelligent indoor coverage solution operating on 3G 850Mhz and 4G 700/1800 bands. It is designed to dramatically boost indoor voice quality and increase data speeds for HSPA or LTE consumers. The Cel-Fi GO differs greatly from the standard indoor repeater due to its ability to not interfere with the mobile network or other users. Often referred to as a Smart Repeater, the Cel-Fi has the ability to provide maximum coverage, be network friendly and can be easily installed by the end user.

- Increase your mobile coverage to dependable levels
- Ups your data speed and saves your battery usage
- Made for vehicles, marine, caravan and transport applications
- Boost your signal by up to 100dB of system gain
- Kits available Include external and internal antennas
- Unit is Locked to your specific Mobile Network
- Carrier authorised and approved product
- 3G/4G Band Selection Button with status display
- Bluetooth WAVE App for iPhone, Android & PC
- 12Vdc accessories plug power for vehicles

CEL-FI GO MOBILE REPEATER - TELSTRA

THE CEL-FI REPEATER HAS BEEN TESTED, AUTHORISED AND APPROVED BY TELSTRA FOR USE WITH TELSTRA, ALDI MOBILE, BOOST MOBILE, WOOLWORTHS CONNECT + OTHER MVNO'S

Note: Cel-Fi GO will boost a single band at a time (either 3G 850 or 4G 700 or 4G 1800). This and other functions are controllable by a bluetooth app to control your Cel-Fi GO. Voice on 4G (VoLTE) will only work in selected areas and with later model phones.

Type	External Antenna	Internal Antenna	Code

Mobile Cel-Fi GO Portable Case

CEL-FI GO CELLMATE V2 – PORTABLE MOBILE REPEATER

WEATHER PROOF CASE - 3G/4G - INTERNAL BATTERY 12V/240V CHARGER - EXTERNAL RECEIVING ANTENNA REQUIRED

The Cel-Fi Cellmate Smart Repeater is the ideal product to boost and distribute a 3G/4G mobile signal within your car, 4WD, or truck and for emergency services, being transported between fleet vehicles, construction or mining sites. Supporting voice and mobile internet for multiple mobile devices, dropped calls and slow internet are a thing of the past. Cellmate features a Cel-Fi GO, power supply and battery backup in a Pelican Case 1400 which is IP67 Watertight, crushproof and dustproof. Coupled with antennas (sold separately) and the Cel-Fi WAVE smartphone app, Cellmate is the ideal solution to resolve coverage challenges, in the harshest environments

- Cel-Fi Cellmate for repeating 3G and/or 4G (Network Specific)
- Select manually or auto, to boost 3G or 4G (only one band at a time)
- Pelican Case 1400 - IP67 Watertight, crushproof, and dustproof – 340x295x152mm
- 240 Mains Power Supply & 12V Accessories Socket power supply inbuilt charger
- Truly portable solution with inbuilt battery – supplies power for up to 10 hours
- Bluetooth Cel-Fi WAVE App control. Reception level, boost level, 3G or 4G mode.
- Internal transmit antenna in the base of the case 5dBi thin panel type antenna
- External SMA/F Antenna port for connection to a high gain reception antenna
- External antenna, mount and cabling are sold separately

□ Audio Units & CB □ UHF 80CH CB Radio Car Install

CRYSTAL 80CH UHF CB RADIO - MIC CONTROLLER

477MHZ 12V 5W TRANSCEIVER WITH FULL FUNCTION MIC

UHF CB Radio with 80CH narrow band channels, all buttons have been located on the hand-piece so the main unit can be stored away. This unit features the new 80 channel UHF Narrowband standard. This new UHF standard is backward compatible with the standard 40CH UHF (Wide-band). Extra-compact unit only 155x112x30mm.

- 12Vdc transceiver with 5 Watt transmission power
- Large hand-held microphone display (select from 7 LCD colours)
- Full aluminium die cast heat sink chassis, Rugged construction
- 80 Narrow band channels 477MHz UHF (40CH Compatible)
- Automatic squelch control, can mute car stereo when receiving
- Duplex (Range extender) extends the range of communication through local repeater stations from the surrounding areas.
- All the controls and an LCD display are on the mic for easy control
- Channel scan function, Automatic squelch control
- Microphone 1.6M curly cord to RJ45
- Includes RJ45 extension 2M

CRYSTAL 80CH UHF CB RADIO - COMPACT

477MHZ 12V 5W TRANSCEIVER

This high powered unit features the new 80CH UHF Narrow Band. Backward compatible with the standard 40CH UHF (Wide-band). This unit is very compact and features a large LCD display with changeable backlighting colour. The CB radio has a heavy duty die cast aluminium chassis for rugged protection and efficient heat dissipation. It has a 12V line output used for muting compatible stereos when receiving a call from another transmitter. The automatic squelch has adjustable sensitivity control to help filter out annoying back-ground noise. Compact 155x112x55mm. 12Vdc. 5W. 477MHz

- New Narrow band channel compatible transceiver
- 80 Channel UHF CB Compact
- Compatible with standard 40CH UHF
- High power 5 Watt transmission
- Large backlit LCD display (7 adjustable colours)
- Full aluminium die cast chassis with integrated heat sink
- Capable of muting the car stereo when receiving signals
- Automatic squelch control
- Channel scanning
- Duplex Range Extender feature:
- Extends the range of communication through local repeater stations from the surrounding areas.
- 13.8Vdc

Code
DB477A

CRYSTAL 80CH UHF CB RADIO - ULTRA COMPACT

CRYSTAL BRAND ULTRA COMPACT 12V 5W TRANSCEIVER

Crystal's ultra compact CB radio with 80 narrow band channels can be easily installed in tight spaces. This unit is very compact and simple to use. It features a 7 colour LCD backlit display to show the status and front panel control buttons for configuration. The chassis is heavy duty die cast aluminium for rugged protection and efficient heat dissipation. This CB radio utilises the new 80 channel Narrowband UHF standard and is backward compatible with the standard 40CH UHF (Wide-band). 12Vdc. Ideal for use in cars, 4WDs and caravans.

- 5 Watt transmission power
- Full aluminium die cast chassis
- 80CH Narrow band 477MHz UHF (40CH Wideband Compatible)
- Automatic squelch control with adjustable sensitivity
- 12V output line for muting a compatible car stereo when receiving
- Duplex (Range extender) extends the range of communication through local repeater stations from the surrounding areas
- Backlit display can be changed between 7 different colours
- Dual channel monitor and Channel scan
- 12Vdc (24V will need a reducer not included)
- Compact 98x98x24mm (Depth is + buttons & cables)

Code

□ UHF 80CH CB Radio Hand-Held

CRYSTAL HANDHELD UHF CB RADIO 5W - PRO

SOLD AS A SINGLE UNIT WITH CHARGING STATION

Crystal's programmable, professional grade, handheld CB radio with 80 narrow band channels. The unit comes with aluminium die cast chassis and inbuilt rechargeable Li-ion battery. Can reach over 12km radius on perfect terrain and atmospheric conditions. This radio is suitable for rugged outdoor use and professional applications.

- 5 Watt Transmission power with long-reach bendable antenna
- Detachable SMA High gain antenna, reachable at 12km+
- Durable rugged compact design with belt clip.
- Duplex (Range extender) 80 Narrow band channels 477MHz UHF
- 38 Interference eliminator codes CTCSS
- 83 DCS codes (Digital Coded Squelch), Automatic Squelch control
- Backlit LCD Display with Channel and Frequency display
- Dual channel monitor, Channel Scan
- Hands free (VOX) capable ear set
- LED torch light and FM radio
- Call Tone alter
- Rechargeable Li-Ion Battery
- 12 Hrs usage (5-5-9 work cycle)
- Removable antenna, SMA Connector
- 195x56x30mm 185g
- Base charger included (240V & 12Vdc)

Power Code
5W DBH50R

KIT INCLUDES

One Hand-Held Transceiver
Charging Dock (240Vac)
Car Charger Lead (12Vdc)
Hand Strap and Belt Clip
Earphone with answer button or VOX

Optional programmer available: DBH50USB
Replacement Battery: DBH50R-BAT
Hands-free earset/mic: DBH50MIC

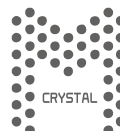

CRYSTAL HANDHELD UHF CB RADIO 5W - IP67

WATERPROOF HANDHELD CB RADIO

A professional grade waterproof 5W handheld UHF CB radio is ideal for professional use and the serious off roader. Features includes 80 channels, 83 DCS codes, duplex range extender, 38 DTCSS codes. Sturdy aluminium die cast chassis, IP67 Waterproof and Dustproof. 5W power up to 15KM. Charging dock.

- IP67 Waterproof and Dustproof Rated
- Aluminium Diecast Chassis
- 5 Watt Power Output
- 80 Narrow Band Channels
- Removable Lithium Ion 1500mAh
- Automatic Squelch Control
- 83 DCS Codes
- 38 CTCSS Codes
- Duplex Range Extension
- Channel Scanning
- Dual Channel Monitor
- Hands-free VOX Capable
- Includes hands-free ear/mic
- Backlit Display and Buttons
- High Gain Antenna removable SMA
- FM Radio (requires programming cable to enable)
- VOX Compatible
- Base charger (12V & 240V)

Power Code
5W DBH50M

Optional programmer: DBH50USB
Extra Battery: DBH50M-BAT
Replacement ear/mic: DBH50MIC

CRYSTAL HANDHELD UHF CB RADIO PAIR 1W

RECHARGEABLE WITH CHARGER CRADLE

- 1 Watt Power Output for up to 9Km range*
- 80 Narrow Band Channels
- Rechargeable 800mAH Ni-MH Batteries
- or 4 x AAA Batteries per unit (not included)
- 240V AC Desktop Charging Dock
- Automatic Squelch Control
- 83 DCS codes
- 38 CTCSS Codes
- Duplex Range Extension
- Channel Scanning
- Dual Channel Monitor
- Hands-Free VOX Capable
- Backlit Display
- Bonus camo' skin (x2)

Power Code
1W DBH11R

CRYSTAL HANDHELD UHF CB RADIO PAIR 0.3W

SOLD IN PAIRS

- 0.3 Watt Transmission power Range up to 3 km
- Durable Rugged design with stubby antenna for outdoor pocket use
- Duplex (Range extender), 38 Interference eliminator codes CTCSS
- 80 Narrow band channels 477MHz UHF
- Backlit Display with Channel Scan
- Automatic Squelch control
- Handsfree (VOX) capable.
- Optional ear-sets available
- Call Tone alter
- 46x28x113mm including antenna
- 3x AAA Batteries each (not included)
- Sold as set of 2

ISM BAND PORTABLE DUPLEX WIRELESS RADIO - BWI900

WIRELESS INTERCOM SOLUTION - UP TO 1KM RANGE - 26CH - OPTIONAL ENCRYPTION

The BWI900 digital portable radio operates at the 915MHz~928MHz frequency band and offers full duplex audio with up to 10 users talking hands-free simultaneously. It also supports PTT simplex mode. Up to 1000m transmission range between radios. It provides crystal clear audio with impressive noise cancellation circuitry and is secured protected by AES 128-bit encryption. Heavy duty, and IP65 water resistant design. This device comes with 3x batteries, USB wall charger and cable. Each battery provides ~12 hours of use.

- Full duplex audio with up to 10 users talking simultaneously.
- Operational modes: Hands Free Full duplex, PTT when PTT is integrated and Listen Only
- No base, unlimited listeners, Up to 1000M Transmission Range.
- Super dynamic range of noise cancellation of 95dB, and minimal ambient audio interference.
- 2x antenna options are provided for varying range requirements.
- Includes 3x rechargeable Li-ion batteries, each battery provides ~12 hours of radio use.
- The batteries are replaceable.
- Includes USB charger as well as the ability to individually charge the device via USB cable.
- AES 128-bit encryption is provided with each radio.
- Each talk group is individually able to have separate encryption keys.
- Includes rugged carry case with foam insert.
- IP65 rugged and water-resistant design, including the detachable antenna.

□ CB UHF 477MHz Fibreglass Whips

UHF FIBREGLASS 0.6M 4.5dB

VEHICLE ROOF MOUNT

The Benelec 02623 is 4.5dB gain, roof mount fibreglass antenna covering all UHF commercial Mobile Radio Bands. The 02623 antenna offers a genuine 4.5dB of gain on the horizon across the whole designated band of operation. All antennas are designed for optimum performance on the Benelec 02740 mobile base and cover the entire respective designated bands of operation under 1.5:1 VSWR. Its fibreglass construction with heat shrink fit coating ensures smooth strong and flexible finish.

Gain	4.5dB
Length	650mm
Colour	Black
Type	UHF 477MHz
Base	5/16"
Benelec	02623
Code	ANT534

UHF FIBREGLASS 0.8M 5dB

The ANT861 antenna is 860mm long and 7mm thick wide band, 5dBi high gain antenna. Covered with polyolefin for heavy duty use.

Base	5/16"
Freq.	468MHz-479MHz
Gain	5dBi
Length	860mm
MobileOne	M475HD
Code	ANT861

UHF FIBREGLASS 0.6M 4.5dB

477MHz 600mm

Lightweight flexible whip high power transmitter collinear. Low SWR, low angle of radiation PVC coated fibreglass. Made In Australia. 5/16" base required. VSWR 1.5:1 over 14MHz 4.5dB Gain. Mobile One M474.

Length	600mm
Gain	4.5dB
Type	477MHz
Base	5/16"
MobileOne	M474
Code	ANT821

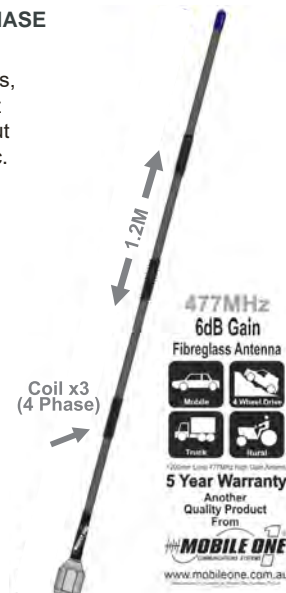

UHF FIBREGLASS WHIP 1.2M 6dB

MEGA-BLASTER 477Mhz 6dB 4 PHASE

Wide bandwidth 25MHz to 900MHz! Multi-stacked collinear 1.2M fibreglass, polyolefin covered. 6dB gain 450MHz to 520MHz with 1M² ground plane, but will also perform well on bull-bars, etc. Suit scanners, UHF, etc. Black. High grade construction with copper and brass. Long-life for base or mobile. Terminated 5/16" for UHF bases. Australian made. Antenna only. Mobile One M476

Gain	6dB
Length	1200mm
Type	477MHz
Base	5/16"
Brand.	MobileOne
Colour	Black
OEM	M476

CEL-FI MOBILE TRUCKER WHIP ANTENNA - BLACKHAWK

Ideal for all carrier bands Telstra, Optus and Vodafone 3G/4G.

- 4(6) dBi gain across lower bands 698-960 MHz
- 6(8) dBi gain across upper bands 1710-2170 MHz
- Available in short 68cm(4/6dBi) or longer 95cm(6/8dBi)
- can be mounted directly on a bullbar, Bracket additional
- Included is 4m of LMR240 Ultra Flex cable fitted with SMA-Male
- Made of ruggedised fibreglass to withstand 210km/h winds
- Suitable for all mobile phone service carriers

CELLULAR VEHICLE MOUNT KIT - CELLINK

6dB 690-960MHz & 3dB 1710-2700MHz

This antenna kit is a 3G/4G multi-band antenna intended for use in the bands 690-960MHz and 1710-2700MHz. The antenna utilizes a low loss cable lead directly attached to the antenna which allows for ease of installation. The antenna is lightweight and is fitted to a Stainless Steel spring. Retail packaged.

- 4G Multi-Band performance.
- 6.0dBi Gain @ 690-960 MHz.
- 3.0dBi Gain @ 1710-2700 MHz.
- Kit includes Bull-bar bracket legal type
- Z-Bracket guard mount stainless-steel
- Attached 5m LL195 coax to SMA Male plug
- Fibreglass & thick walled Radome whip
- 890mm total, light in weight 0.75kg
- Polished Barrel Stainless Steel spring.
- Designed and manufactured in Australia

Type	Fixed
Gain	6dB/3dB
Length	890mm
Base	5m Lead
Plug	SMA Male
Code	ANT547BK

CELLULAR BUILDING MOUNT KIT "N"

7.5dB 690-960MHz & 3dB 1710-2700MHz

The ANT549WH antenna is a 4G multi-band antenna intended for use in the bands 690-960MHz and 1710-2700MHz. The antenna utilizes a low loss N female connector & the antenna is lightweight. The kit includes a connection cable 12 metres LL400 N Male to SMA Male. A 240mm stainless-steel L Bracket ad 2x hose clamps for pole mounting. Plus Self-amalgamating tape for securing the plug connection.

- 3G/4G/5G Multi-Band performance.
- 7.5dBi Gain @ 690-960 MHz.
- 3.0dBi Gain @ 1710-2700 MHz.
- Kit includes L-Bracket Stainless steel
- Kit Includes 2x Hose Clamps pole mount
- Fibreglass & thick walled Radome 812mm
- Designed and manufactured in Australia
- Terminates to "N" Female socket
- Kit includes 12m LL400 N-Plug to SMA Male

Type	Detachable
Gain	6db / 3dB
Length	812mm
Base	N Plug
Plug	SMA Male

□ "H" Earpiece Range

"H" PLUG - BENELEC COMMUNICATIONS MICROPHONE ACCESSORIES SYSTEM

UNIVERSAL RADIO AUDIO ACCESSORY SYSTEM FROM BENELEC

The H-Termination Adaptor has been designed to provide a range of universal audio accessories that are able to terminate to a wide range of radio brands and models. The H-Termination system provides mechanical strength at the termination to the radio while still providing the ability to quickly and easily change the audio accessory between shifts.

- Allows for a comprehensive range of Benelec high performance audio accessories and radio adaptors suitable for all major brands and models.
- Rapid and secure termination of accessories without affecting radio's audio port.
- Preserves the capital investment of accessories as radio changes can now be made, and new adaptors used.
- Unsecured radio audio connections have a cable tail to provide strain relief.
- The universal interface of H-Termination can now service multi-platform radio fleets.
- Carry less stock and sell customers different radio brands with one accessory.

H-Termination Adaptors Converts the Universal Plug into the following:
