# GHDVR410

## SUPER HD DASH CAM WITH GPS AND ADAS

The Gator GHDVR410 represents excellent value with exceptional picture quality and will ensure you never miss a critical moment ever again. With the external GPS antenna connected the GHDVR410 will record speed and location data that can be viewed on the included PC software. Advanced driver safety features like forward collision warning and lane departure warning set the GHDVR410 leagues above the rest.

### Key Features

- Super HD 1296P Video
- 30 FPS
- F2.0 Aperture
- 160 Degree lens angle
- GPS data logging with external antenna
- Forward collision warning
- Lane departure warning
- SOS record function
- HDMI video output
- 3" LCD screen
- Includes suction cup and adhesive mount
- 16GB Micro SD card included

## **GHDVR369** **FULL HD DASH CAM** **WITH 2.4" LCD SCREEN + GPS**

The Gator GHDVR369 1080P Dash Cam With GPS Data Log simply suction cups to the front windscreen of the car and records footage in full 1080P HD Resolution. It includes a 2.4" LCD screen, 170 degree super wide angle lens and g-sensor which senses any sudden/unusual movement and securely stores the footage for future review. The camera will support up to 32GB micro SD which is not included.

The camera also includes GPS Tracking built in which allows you to play back the footage on your computer with the provided software and see on a map where the vehicle was at the time of the footage along with the speed the vehicle was travelling.

Dash Cams are a necessity on the roads today whether it is to capture a critical moment during an accident to use as support in an insurance claim or simply recording a road trip vacation. The Gator GHDVR369 represents excellent value with exceptional picture quality and will ensure you never miss a critical moment ever again.

### **Key Features**

- 1080p Full HD
- 170 Degree Super Wide Angle Lens
- GPS Tracking Built In For Video Playback
- G Sensor To Detect Any Sudden Movement
- Wide Dynamic Range For High Quality Footage
- 2.4" Screen For Instant Playback
- SOS Manual Recording Function
- Built-in Microphone
- Date/Time Stamp
- Micro SD NOT Included

## **GHDVR292** **FULL HD DASH CAM** **WITH 2.4" LCD SCREEN**

The Gator GHDVR292 1080P Dash Cam simply suction cups to the front windscreen of the car and records footage in full 1080P HD Resolution. It includes a 2.4" LCD screen, 148 degree super wide angle lens and G-Sensor which senses any sudden/unusual movement and securely stores the footage for future review. The camera will support up to 32GB micro SD which is not included. It also has a HDMI Output which can easily be connected to a TV for playback.

Dash Cams are a necessity on the roads today whether it is to capture a critical moment during an accident to use as support in an insurance claim or simply recording a road trip vacation. The Gator GHDVR292 represents excellent value with exceptional picture quality and will ensure you never miss a critical moment ever again.

### **Key Features**

- 1080p Full HD
- 148 Degree Wide Angle Lens
- G Sensor To Detect Impacts
- HDMI Video Output
- 2.4" Screen For Instant Playback
- SOS Manual Recording Function
- Built-in Microphone
- Date/Time Stamp
- Micro SD NOT Included

## **G**HDVR359 FULL HD DASH CAM WITH CABLE COVER

### Key Features

- 1080p Full HD
- 170 Degree Super Wide Angle Lens
- Driver Fatigue Warning
- Headlight Reminder
- G Sensor To Detect Any Sudden Movement
- Wide Dynamic Range For High Quality Footage
- 1.5" Screen For Instant Playback
- Includes Cable Cover For Neat Install
- Date/Time Stamp
- 4GB Micro SD Included

## **G**DVR203 HD DASH CAM WITH 1.5" LCD SCREEN

The Gator GDVR203 720P Dash Cam is a compact dash cam that simply suction cups to the front windscreen of the car and records footage in 720P HD Resolution. It includes a 1.5" LCD screen, 120 degree wide angle lens, night vision infrared LED and g-sensor which senses any sudden/unusual movement and securely stores the footage for future review. The camera will support up to 32GB should you want to capture more footage.

Dash Cams are a necessity on the roads today whether it is to capture a critical moment during an accident to use as support in an insurance claim or simply recording a road trip vacation. The GATOR GDVR203 represents excellent value and will ensure you never miss a critical moment ever again.

### Key Features

- 3" LCD Monitor
- 1080P Full HD Dash Cam
- 720P Rear Camera
- 148 Degree Wide Angle Lens
- G Sensor To Detect Impacts
- HDMI Video Output
- SOS Manual Recording Function
- Built-in Microphone
- Date/Time Stamp
- 8GB Micro SD Included

# GHWC

## HARD WIRING CABLE FOR MOST GATOR DASH CAMS

The Gator GHWC Dash Cam Hard Wire Kit enables a professional installation of a Gator Dash Cam into your vehicle. Instead of sourcing power from the accessory socket of the vehicle, the GHWC allows the dash cam to be wired directly to the vehicles fuse box. It will still function the same way as the accessory plug power lead but allows all cables to be hidden for a professional installation.

The GHWC is compatible with Gator Dash Cams that feature the 5 PIN TYPE B MINI USB including: GDVR189- GDVR190- GDVR201- GDVR203- GHD5MR- GHDVR291- GHDVR292- GHDVR303- GHDVR349- GHDVR359- GHDVR369- GHDVR379.

GHWC Specifications:  
INPUT: 12/24V  
OUTPUT: 5V 1.5A  
USB CABLE LENGTH: 2m  
POWER CABLE LENGTH: 0.5m  
FUSED: No, will need to be connected via a fuse in the vehicle.

- Parking Gridlines

### Camera Key Features

- Stealth-Mount Design
- Rated **IP67** Waterproof
- 120 Degree Lens Angle
- CMOS Camera Sensor
- Includes CANBUS Noise Filter

# G700CK

## 7" MONITOR

WITH HEAVY DUTY CAMERA

### Monitor Key Features

- 7" High-Res Monitor
- IR Remote Control
- 800(H) x 480(V) Resolution
- Dual Video Inputs
- 12/24V Dual Voltage
- Auto Switching
- Adjustable Picture Settings
- PAL/NTSC Auto Switching

### Camera Key Features

- Stealth-Mount Design
- Rated **IP67** Waterproof
- 110 Degree Lens Angle
- 8X IR LED's
- Parking Gridlines
- CMOS Camera Sensor

### Also Included

- 1X 6M Cable
- Dash Mount For Monitor
- Sunshade For Monitor

**PR** Link II

# G500KT

## 5" MONITOR

WITH STEALTH-MOUNT CAMERA

### Monitor Key Features

- 5" High-Res Monitor
- Built-in Sun Shade
- 640(H) x 480(V) Resolution
- Dual Video Inputs
- 12V Operating Voltage

### Camera Key Features

- Stealth-Mount Design
- Rated **IP67** Waterproof
- 120 Degree Lens Angle
- Parking Gridlines

# G427

## 4.3" MONITOR

WITH STEALTH-MOUNT CAMERA

### Monitor Key Features

- 4.3" High-Res Monitor
- Built-in Sun Shade
- 480(H) x 272(V) Resolution
- 12V Operating Voltage

### Camera Key Features

- Stealth-Mount Design
- Rated **IP67** Waterproof
- 120 Degree Lens Angle
- Parking Gridlines

# GR4S

## REAR PARKING SENSOR KIT WITH 4 SENSORS AND WIRELESS DISPLAY

The Gator GR4S Rear Parking Sensor Kit With Wireless Display not only provides an audible alert when reverse parking, but also provides a visual display of the approximate distance and location of the object at the rear of the vehicle. The visual display is wireless which means you do not need to run a cable from the front to the rear of the vehicle, all you simply need to do is connect the display to power to make it work.

The kit includes four black flush mount sensors which can be mounted into the vehicles rear bumper with the included hole saw. The sensors can even be painted so you can colour match them to your vehicle during installation. The detecting distance is 0.3m - 2.5m, when reversing if an object comes within this range you will hear a buzzer, the closer the object gets to the vehicle the faster the buzzer will go.

### Key Features

- Detecting Distance 0.3m - 2.5m
- Visual and Audible Alert
- Buzzer Built-In to Wireless Display
- 20m Wireless Display Range
- Sensors Can Be Painted
- Weather Proof Sensor Connectors
- 12V Operating Voltage
- 80db Buzzer

# GR4

## REAR PARKING SENSOR KIT WITH 4 SENSORS AND ECU MOUNTED BUZZER

The Gator GR4 Rear Parking Sensor Kit is the perfect kit for increasing safety when reverse parking. The kit includes four black flush mount sensors which can be mounted into the vehicles rear bumper with the included hole saw.

The sensors can even be painted so you can colour match them to your vehicle during installation. The detecting distance is 0.3m - 2.0m, when reversing if an object comes within this range you will hear a buzzer, the closer the object gets to the vehicle the faster the buzzer will go.

### Key Features

- Detecting Distance 0.3m - 2.5m
- Sensors Can Be Painted
- Weather Proof Sensor Connectors
- 12V Operating Voltage
- 95db Buzzer

# GTPMS4BT

## TYRE PRESSURE MONITORING SYSTEM WITH 4 SENSORS AND BLUETOOTH SENDER

The Gator GTPMS4BT 4 Sensor Bluetooth Tyre Pressure Monitor Kit is a great solution for monitoring your vehicles tyre pressure on the go. With Bluetooth built-in, you can simply pair your phone to the tyre pressure monitors and view real time pressures. Simply screw on a sensor to each tyre valve and plug the display into the vehicles accessory socket and you will be able to see the pressure in each tyre. You can even set warnings for tyre leaking, high pressure and low pressure.

To avoid a blow out and increase your tyres life by reducing unnecessary wear, you need a Gator GTPMS4BT!

\*PHONE NOT INCLUDED

### Key Features

- 4x Anti-Theft Screw On Sensors
- Warning For High Pressure, Low Pressure and High Temp
- Number of Sensors: 4
- Sensor Type: External Screw On
- Sensor Battery Type: CR1632 3.0V
- Pressure Monitoring: PSI/BAR
- Default Alarm:
  - High pressure 3.0bar/300KPar/43.5psi
  - Low pressure 2.0bar/200KPar/29psi
  - High Temperature 68 degrees Celsius
- Voltage: 12V
- Sensor Range: 0 to 3.5bar/349Kpar/50psi
- High temperature 68 degrees Celsius
- Working Temperature: -20 to 60 degrees Celsius
- Bluetooth: Minimum Smartphone Requirements iOS6.0 and Android 4.3

# GTPMS4

## TYRE PRESSURE MONITORING SYSTEM WITH 4 SENSORS

The Gator GTPMS4 4 Sensor Tyre Pressure Monitor Kit is a great solution for monitoring your vehicles tyre pressure on the go. Simply screw on a sensor to each tyre valve and plug the display into the vehicles accessory socket and you will be able to see the pressure in each tyre. You can even set warnings for High Pressure, Low Pressure and High Temperature to ensure you remain safe on and off the road at all times.

### Key Features

- 4x Anti-Theft Screw On Sensors
- Warning For High Pressure, Low Pressure and High Temp
- Number of Sensors: 4
- Sensor Type: External Screw On
- Sensor Battery Type: CR1632 3.0V
- Pressure Monitoring: PSI/BAR
- Default Alarm:
  - High pressure 3.0bar/300KPar/43.5psi
  - Low pressure 2.0bar/200KPar/29psi

- High temperature 68 degrees Celsius
- Working Temperature: -20 to 60 degrees Celsius

# HUDGPS2

## HEADS UP DISPLAY WITH GPS INTERFACE

The Gator HUDGPS2 Heads Up Display Unit GPS is designed to sit on the vehicles dashboard and project the speed of the vehicle onto the windscreen. This means you can keep your eyes on the road instead of glancing down at the factory speedometer. This unit is suitable for all vehicles as it has a built in GPS that detects the vehicles speed and simply plugs into the vehicles accessory socket to get power making it very simple to install.

The unit also features speed warning, auto brightness control and adjustable speed setting for accurate matching to your vehicle.

### Key Features

- Displays Vehicle Speed On Windscreen
- Compass to Display Direction
- Uses GPS To Determine Speed
- Large White Digital Display
- Auto Brightness Control
- Plug & Play Installation
- Includes Tinted Window Film and Non-Slip Mat

# HUDOBD2A

## HEADS UP DISPLAY WITH OBD2 INTERFACE

The Gator HUDOBD2A Heads Up Display Unit OBD2 is designed to sit on the vehicles dashboard and project the speed of the vehicle onto the windscreen. This means you can keep your eyes on the road instead of glancing down at the factory speedometer.

This unit is suitable for all vehicles that have an OBD2 port (which is in most vehicles built since 2008). It simply plugs into the vehicles OBD2 port and this provides power and accurate vehicle data. The unit also features RPM display and auto brightness control.

### Key Features

- Displays Vehicle Speed On Windscreen
- Tachometer Display
- Suitable For OBD2 Vehicles
- Auto OBD2 Protocol Matching
- Manually Set Over-Speed Warning
- Large White Digital Display
- Auto Brightness Control
- Includes Tinted Window Film and Non-Slip Mat

# GTRACK 4G

## GPS TRACKER

Data Recording

3G / 4G Network

Wired Installation

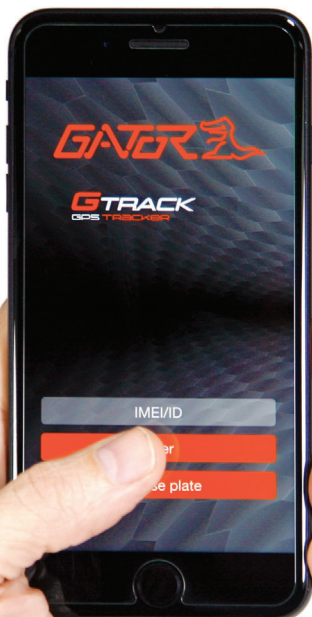

Car theft is on the rise, but the thieves aren't just stealing your car, they're stealing your keys! Some cars are fitted with an alarm, but what good is a car alarm if the thief has the keys and the remote to turn the alarm off?

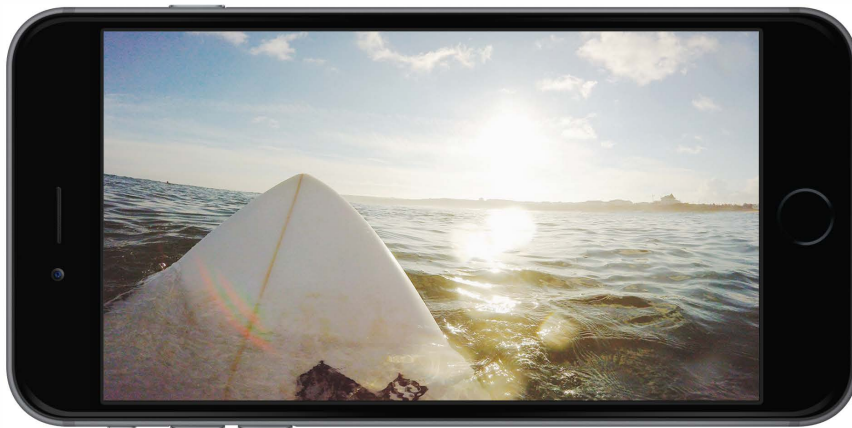

The Gator GTRACK is a cost effective vehicle tracking system that allows you to locate and track the whereabouts of your vehicle in real time via the Internet on a computer or smartphone, so you can report the exact location of your vehicle to police.

### Key Features

- Built-in cellular and GPS antenna for easy installation
- 3G/4G compatible 850MHz, 900MHz, 2100MHz
- Real-time tracking
- Built-in Lithium-ion rechargeable battery
- 3 Hour battery backup
- Built-in motion sensor
- Shock / low battery / power off / over speed alert
- Main power cut off alert
- Power saving sleep mode
- ACC detection
- Geo-fence capable
- Route history
- Remote immobilization (requires relay sold separately)
- A-GPS locating (improves startup performance)

Note: Requires Mini-sim Card And Cellular Connection, Either Pre-paid Or Post-paid Call/data Plan. Most entry level pre-paid or post-paid call/data plans would be sufficient (eg: \$10-\$20 entry plans).  
 Telstra: 850Mhz - 2100Mhz  
 Optus and Virgin Mobile: 900Mhz - 2100Mhz  
 Vodafone: 850Mhz - 900Mhz - 2100Mhz  
 Sim Card Size: Mini-SIM (2FF) 25 x 15mm  
 Internal Battery: 3.7V 370mAh Lithium Ion  
 Operating Voltage: 9-25V (12/24V)  
 Locating Time (approx): Cold Start: 35-80 seconds Hot Start: 1 second  
 Location Accuracy: 5 Meters  
 Unit Dimension 75x40x12mm 39.5g
