Amplifier RMS: 30W X2
Amplifier Maximum Power: 60W X2
AC 240V IN, DC 15V 2.4A OUT
Bluetooth VER4.1+EDR
Distance 10M

Thank you for your purchase of the Accento-Dynamica Bluetooth® Ceiling Speaker. Operation is completely hands-free and pairing is easy with no pass key required. Once power is connected, simply pair and stream. The pairing name is "ACCENTO".

OPERATION:

Power-ON the Accento-Dynamica Speaker.

LED Blinking RED:

The unit will amplify LINE-IN (requires line-level audio to be connected to the RCA inputs), and is ready and waiting for any device to connect to it via Bluetooth®.

Pair Your Bluetooth® device.

Turn on your Bluetooth® device and enable Pair to a new device. Pair to "ACCENTO".

LED Constant BLUE:

Indicates you are now paired. Speaker audio heard remains LINE-IN.

Commence streaming from your paired Bluetooth® device.

LED Blinking Blue:

Indicates the speaker is now streaming Bluetooth® audio from your device.

Return to LINE-IN audio.

LED constant BLUE:

Still paired, but after several seconds of silence, will auto-switch to LINE-IN.

To return to Bluetooth® streaming, press play on your Bluetooth® device.

End Session.

LED Blinking RED: If you disable your Bluetooth® device, pairing is broken, the ceiling speaker amplifier auto-switches to LINE-IN audio playback and The unit remains waiting for any Bluetooth® connection (See above).

Bluetooth® Interrupted.

If you leave the Bluetooth® reception area and the speaker loses signal, connection will automatically re-pair once you return to the zone.

Power connection: Connect the 15V DC power supply to the DC IN Either Screw Terminals Or DC Plug
