

Arya

The good-looking Arya is a floor standing 2½ way speaker.

Arya means 'not ordinary' or 'clever/smart man' and we believe Arya is the clever choice if you want a very handsome 'traditional' floor standing speaker with a high performance.

The drivers for Arya are the MFC (mineral filled PP cone) mid-woofers that give a tight/firm bass when tuned correctly, and a crisp mid. We are confident that PP-cones have never sounded better.

With 2 x 6" you get enough quality bass in room up to about 50m2/500f2.

The tweeter is the very renowned and patented SB29RDC ring dome.

It is a large dome of 29mm and the fact that it is 'terminated' on the top of the dome results in a very low distortion dome-type with a very 'silent/black' background.

X-over is mounted with selected components from recognised brands.

Cabinet:

High quality 18mm MDF with several internal

Kit components:

- Cabinet of own choice incl. front grill (magnet version), All fittings, binding post, damping with cutting pattern sheet.
- Drivers
- X-over fully assembled including driver cables.
- Step by step guidance download from www.sbacoustics.com
- All above parts can be purchased as a complete Arya kit or piece by piece.

All cabinet drawings and schematics will be available online on our website.

ARYA KITS

Frequency Range	44 - 28000 Hz
Sensitivity (2.83V / 1m)	87.5 dB
Nominal Impedance	4Ω
Max SPL	107 dB
Recommended Amplifier	50 - 200 W
Cross-over Frequency	3000 Hz
Enclosure Type	Bass reflex
Port tuning Frequency	41 Hz
Drive Units	SB29RDC-C000-4 & 6" SB17MFC35-8
Cabinet Material	18mm MDF
Speaker Dimension (HxWxD)	1076 x 195 x 310 mm (42.36 x 7.68 x 12.2 inch)
Net Weight	Cabinet only = 18.73 kg (41.29 lb) Full assy = 22.54 kg (49.69 lb)
