

DIMENSIONAL DRAWINGS

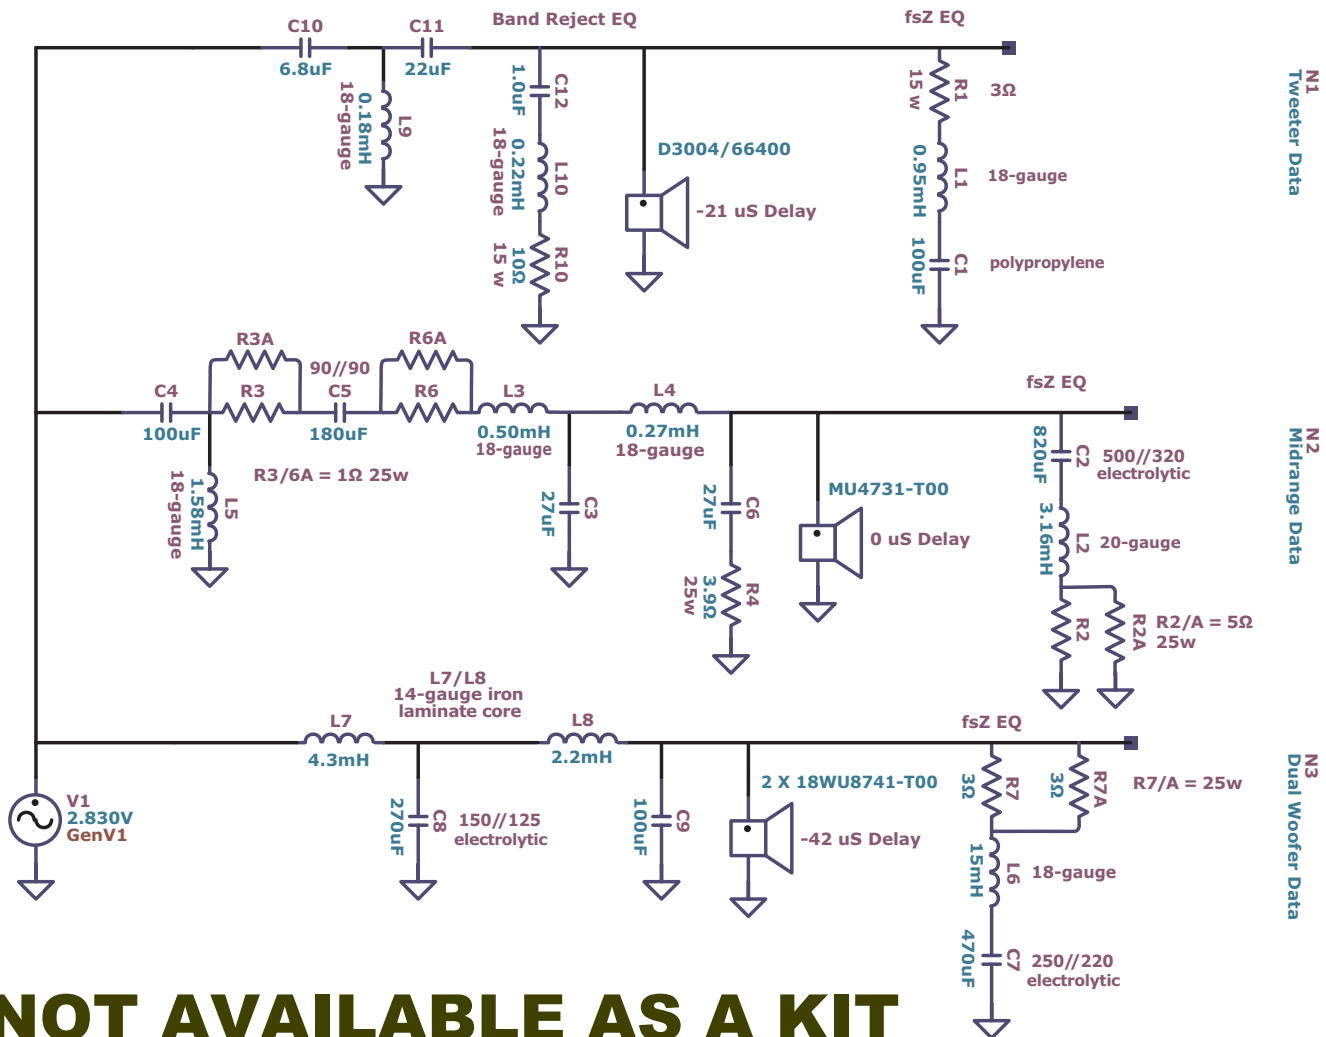

Build It Yourself And Save Big Time!

Two renowned names in one great speaker system. And, with a little effort on your part, at a heck of a savings. You know the names: ScanSpeak and Noerbaek. The impeccable tweeter, midrange drivers and woofers cannot be beat. The innovative electronic crossovers and handsome cabinet are from the legendary Peter Noerbaek. It's an unbeatable blending at an equally unmatched price. All you have to do is buy the kit and perform the easy assembly. It literally doesn't get any better than the ScanSpeak B741 DO-IT-YOURSELF-AND-SAVE AFICIONADO PROJECT!
