

Australian Monitor

MP30

Music Projector

The Australian Monitor MP30 Music Projector is perfect for outdoor background music and paging applications. Combining a wide music quality frequency response with the long throw characteristics of a horn speaker, the MP30 delivers thirty watts of program at one hundred volt, seventy volt or eight ohms.

The Australian Monitor MP30 Music Projector is also IP65 rated, making it perfect for all outdoor applications. With a compact design and a small visual footprint, the MP30 is the solution for delivering high quality BGM and paging for challenging outdoor or indoor applications.

Features

- 30 watt RMS power rating
- 30, 15, 7.5 and 3.8 watt tapings at 100V
- 70/100 volt or low impedance operation
- IP65 rated
- 101dB sensitivity (1w/1m)
- 125Hz – 15kHz frequency response

Specifications

The speaker shall have the throw characteristics of a horn speaker but must be capable of a 125Hz-15kHz frequency response. The speaker must have an IP rating of IP65 and be supplied with bracket.

The speaker will operate via line matching transformer with taps at 30, 15, 7.5 and 3.8 watt. It must also have an eight ohm low impedance setting.

MP30

Driver size	120mm
Driver wattage rating	30W 100 volt tapings 30, 15, 7.5 3.8 watt 70 volt tapings 30, 15, 7.5, 3.8, 1.9 watt
Low impedance	8 ohm
IP rating	IP65
Frequency response	125Hz-15kHz
Sensitivity	(1w/1m) 101dB
Horizontal dispersion	90 degrees
Vertical dispersion	60 degrees
Dimensions	173 x 365 x 272 mm
Weight	3kg
Shipping Dimensions	240 x 430 x 350mm
Shipping Weight	4.5kg
