

## Part No 10108A

### UHF Mobile Antenna Prepared Lead, UHF Base 3.6m RG58 C/U & UHF plug

The 10108A Mobile antenna lead is pre-terminated with an Australian type quality UHF base 5/16" Male Stud Antenna interface. It is designed for mobile vehicle panel mounting and UHF plug is pre-terminated at the cable end.

The lead can be fitted to any mobile antenna mounting that offers a 5/16" female mounting hole.

The UHFp (PL-259) is small enough to generally allow routing of the lead through the vehicle without the need for special tools to terminate the end.

#### Applications

Direct to Vehicle body panels for Mobile Ground Dependent Antennas with Australian 5/16" female termination.
