

Bluetooth Portable Speakers

PORTABLE WIRELESS BLUETOOTH SPEAKER

OPTIMIZED DSP AUDIO WITH DUAL PASSIVE BASS RADIATORS

INNOVATIVE AUDIO PRICE BREAK THROUGH

Utilising the latest DSP and speaker driver technology to achieve a remarkable volume of quality sound from a very compact package that will surprise the uninitiated.

HIGH POWER FULL RANGE

Dual passive radiators, both front and rear facing, produce impressive low frequency that is warm and punchy.

DSP AUDIO

Unique custom DSP chip enhances audio to maximise sound quality and reduce distortion even at higher volume levels.

NFC WIRELESS

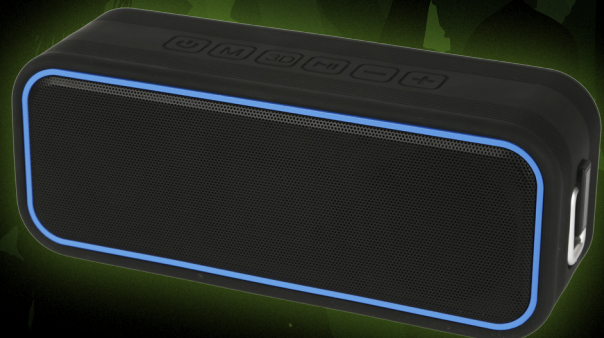

NFC and BT4.2 offer very easy pairing and near instant re-connection.

DUAL BATTERY

Dual batteries for more amplifier power and to extend cordless usage.

BIG SOUND - COMPACT CAPSULE

You will be blown away by the full immersion sound produced by this little unit with audio quality comparable with larger branded units costing much more.
