

## Complete Storage Solutions

www.storagetek.com.au

## **About Us**

StorageTek<sup>®</sup> is an Australian owned company set up in Southern China with its own state of the art ISO2001:2008 manufacturing facility. StorageTek is a member of a larger multinational organization spanning three continents.

StorageTek's product range includes tradesman and professional storage cases available in various sizes and complete with customizable racks, storage bins, trolleys and cabinets.

Our cases are suitable for vehicles, garages, business premises and sheds. Louvered panels are also available as part of the complete solution.

Larger solutions include truck boxes and job site boxes for working professionals, also available in various sizes and configurations.

One of our most successful products developed for Australia, is our washing machine stand. It is compatible with a full range or washers, dryers and is just one example of StorageTek's OEM/ODM solutions. Each stand has special locking feet to secure any dryer or washer, and allows for a locking drawer under the product. Consumers love the combination of safety, accessibility and functionality. This is available in all electrical retailers in Austra-lia.

All metal work, plastic injection molding, assembly, packaging and quality control is completed onsite in our 100,000 SQFT facility. Labelling and injection molding of private label brands is just part of the service that we offer for a complete turnkey solution to all your storage needs.

Complete Storage Solutions

## **PRODUCT GUIDE**

www.storagetek.com.au

#### **STORAGETEK - PREMIUM ABS CASES**

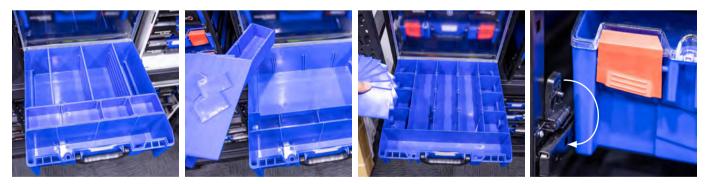

StorageTek ABS Cases, Frames & Cabinets are professional storage and transportation system suitable for installation in vehicles or workshops. Designed specifically for Electricians, Plumbers, Data Cable installers, Mechanics, and many others in business, the office, workshop or at home.

Popular slide and lock drawer type system for removing the case so you can easily transport your parts and equipment from one job to the next. Ideal for transporting components, parts, tools, equipment and accessories, securely and safely from job site to job site for many years.

StorageTek ABS Cases are available in two sizes with either a clear or opaque lid. Removable compartment dividers are also included. Assorted sizes, premium steel, welded and powder coated frames and cabinets with optional doors: Create a system for your specific application.

StorageTek ABS Cases offer superior build quality for the rough vigors of the tradesman, and the endurance to survive constant transporting. Secure and reliable locking of the case lid with snap-lock flaps. Secure and reliable locking of the case in position with the sliding rack system.

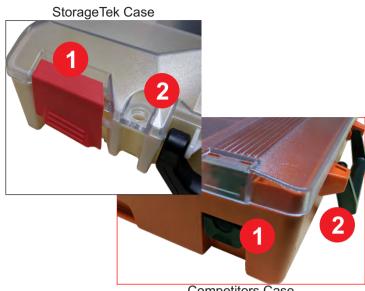

StorageTek ABS Cases offer features and benefits over the competition including direct compatibility with Rolacase<sup>®</sup> and other leading brands. StorageTek cases fit into other popular cabinets and frames and theirs can fit into StorageTek cabinets and frames for universal compatability.

## Comparison of StorageTek cases against competitors products.

**Competitors** Case

A removable clear label holder that allows you to easily change the labels of each case.

4. Ergonomic handle design for better gripping.

 StorageTek cases feature dual front facing fibreglass/nylon/ABS clasps for superior secure locking.

2. Unlike our competitors, StorageTek cases are individually lockable with a padlock of your own choosing.

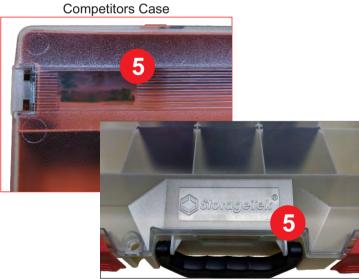

Competitors Case

5. Branding on the StorageTek cases is stamped into the ABS plastic lid for longevity, unlike our competitors which will wear off with use.

**Competitors Case** 

StorageTek Case

6. StorageTek cases are crosscompatible with other brands. This can cut down set up costs and facilitate replacing old or broken cases.

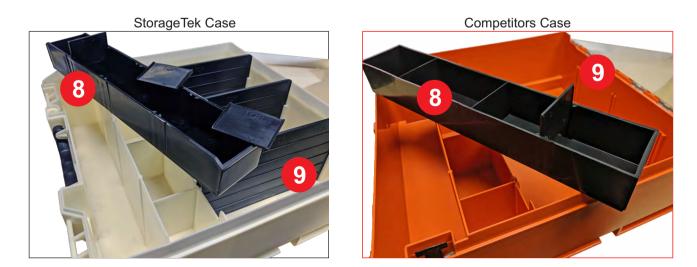

StorageTek Case

**Competitors Case** 

7. StorageTek cases feature modern styling with rounded and sloped corners. This ergonomic design is more than just form, it adds to durability and ease of use.

8. StorageTek cases feature a similar removable tray in the large cases, but unlike our competitor, all dividers are removable.

9. The large StorageTek cases also come with removable dividers as standard - no extra purchase required.

## StorageTek ABS Cases

Various color options available for body and clasps
