

Blackhawk Omni Marine Antenna

698-960/1710-2700 MHz, 7/10dBi (ANT-BH-OM-201M)

The Blackhawk Omni Marine High Gain Antenna is designed for versatility, for use in a variety of environments, in low to high signal areas and mounted in a marine environment.

The Blackhawk Omni Marine Antenna will operate with all mobile carriers regardless of the frequency they operate on.

With a 7-10 dBi gain and supporting all bands, this antenna is hard to beat and will provide the perfect solution for voice and data applications where high gain marine antennas are required.

Perfect for fixed wireless terminals, mobile broadband internet applications and smart repeater applications.

Features:

- Suitable for all mobile carriers
- Comes with base marine mount choice of rail/deck/stainless steel deck
- N Female connector
- Option to have LMR400/LMR240 low loss cable lengths available

BLACKHAWK OMNI MARINE HIGH GAIN

ELECTRICAL SPECIFICATIONS	MECHANICAL SPECIFICATIONS
Freq Range 698-960/1710-2700MHz	Dimensions 1250 mm H 20mm D
Impedance 50Ω	Weight 450g
VSWR <3/2	Operating Temperature -40°C - +60°C
Gain 7 dBi / 10 dBi	Connector N-Female
Max input power 50W	Material Glass/Steel
Polarisation Vertical	Antenna colour White
