

# EXAMPLE SET UP OF 6X DIGLED STRIPS.

For the set up to work, these parts are required:

- 6x DIGLED
- 6x SMP12V-3A-21P
- 2x SP103E

Note:

LED Strips will need to be separated into 2x sets of three Strips, with a Controller for each set.

A maximum of 3x LED Strips can be cascaded into one length of 15m.

The 2x Controllers should both be within a common detection area of the Remote Control.

Only one Remote Control should be used.
