

Modular Wall Plate Inserts

At Pro2, we understand that each job is different and each setup is unique. So that's why we created the MWI13 modular wall plate range.

Need 2 HDMI sockets and a Foxtel point on the wall? No problem, just pick your parts and assemble your own. Need to replace an old USB2 port with USB3? Just swap out the old one and replace it with the new without touching any other connector.

With our modular design you can simply mix and match up two 3 modules to suit your needs. They snap on tightly and securely giving a perfect finish, each time.

FRAME WALL PLATE

MW13FR
