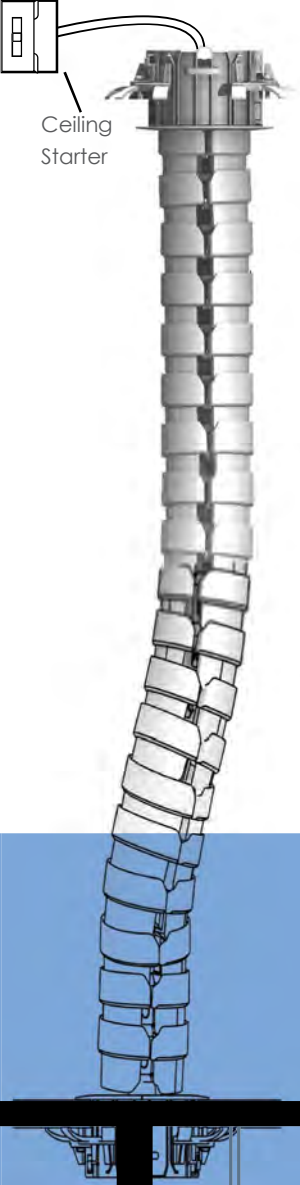
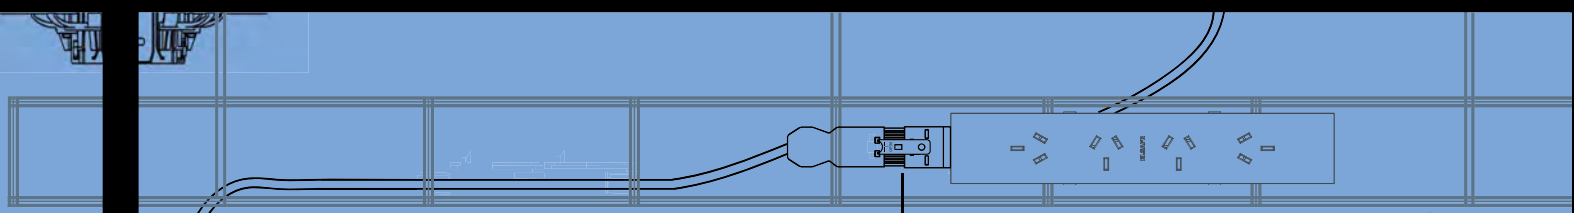
SOFT WIRING AT A GLANCE



OE Elsafe offers an extensive range of desktop power rails designed to deliver any combination of Power, Data, AV and USB charging. QIKSILVA and PACE are designed for use with the OE QikFIT Range, offering compact minimalist solutions.

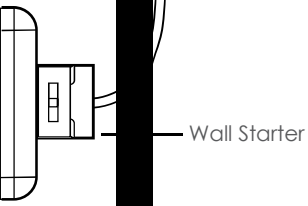
ON SURFACE SOLUTIONS

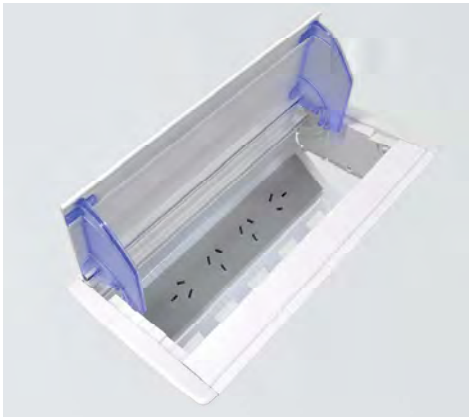


UNDER SURFACE SOLUTIONS

PRODIGY is the fastest cable basket to install on the market today. Built in mounting arms and click in QikFIT power, Data/AV modules make PRODIGY the smart choice in workspace design.

OE Elsafe's own J COUPLER is the safe, thoroughly tested, method of connecting OE Elsafe modules into soft wiring systems.



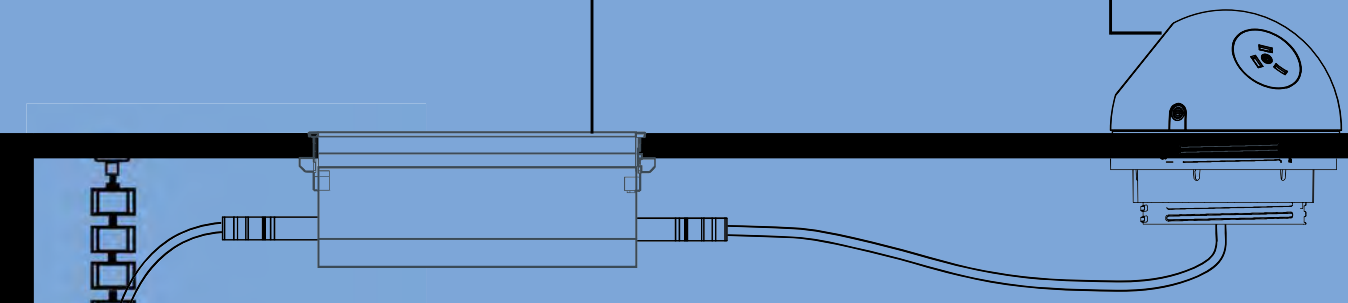


OE Elsafe table boxes are easy to install, flexible all in one power and data management solutions. The AXXESS in surface table box is suitable for workstations, meeting rooms and conference tables.

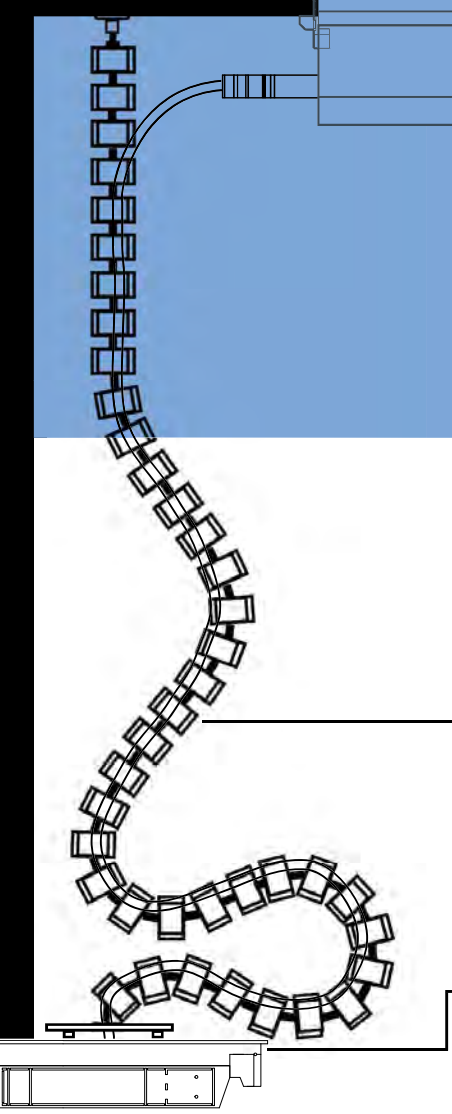
OE Elsafe specialise in personal power and data connectivity in both the workplace and public spaces. OE Elsafe's PIXEL is a compact practical solution fitting neatly into a wide range of furniture including seating.

Our patented TUF R (replacable) USB laptop and mobile charging solution makes it easy to replace or upgrade, using a simple tool. Include TUF-R in PLUTO to future proof your investment;- upgrade or replace the TUF-R charging socket when required.

IN SURFACE SOLUTIONS



CABLE MANAGEMENT



OE Elsafe's umbilical cable management options will suit any application including sit to stand and height adjustable workstations. CABLE SNAKE® is a unique cable management system exclusive to OE Elsafe.

OE Elsafe's large range of floor boxes are practical, discreet and are simple to install in either new or existing spaces. OE Elsafe floor boxes can be configured with any combination of Power, Data/AV and starters

WORKSTATIONS AND OFFICES

Distributing power and data to a large number of workstations, with the flexibility to change easily and safely, is the key to efficient use of space.

Our ability to source power and/or data from either walls, ceilings or floors and to manage that distribution efficiently is the key to our success. The breadth of our range of solutions is what enables us to more than satisfy your requirements now and into the future.

PICCOLO

Piccolo TUF-HP provides high powered USB A+C laptop and mobile charging in an easy to install compact yet powerful module. This innovative solution splits the power system, providing a compact USB laptop and mobile charging solution to the workspace with the power supply discreetly hidden under the desk, inside cabinetry or fitted into the OE Prodigy cable basket. PICCOLO can be mounted on or under desk, using screws, clamp bracket, velcro or adhesive pads .

WIRELESS FAST CHARGING

ARC-80

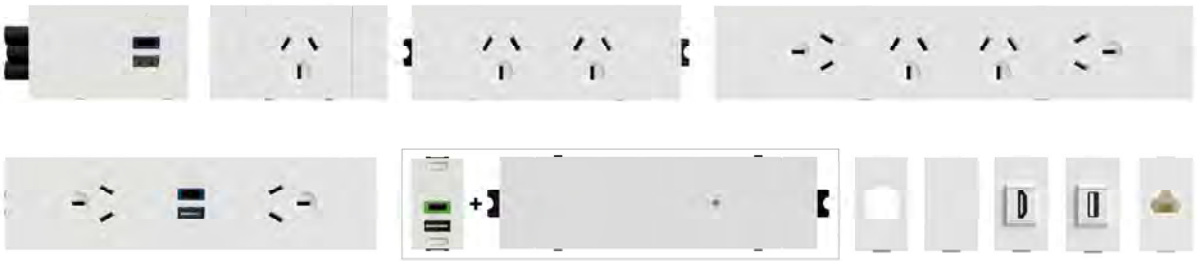
Commercial grade, robust and powerful. Quick and easy to install, ARC-80 fits neatly into a standard Ø80 mm cutout and once connected provides a powerful 10W of charging power. ARC-80 is also Qi Certified for peace of mind.

QIKSILVA

The OE QIKSILVA on surface power rail has been designed to work with the QikFIT range to provide a complete solution for power, USB laptop and mobile charging, data and AV connectivity to desktops and workstations.

QIKFIT

QikFIT provides a range of power, data / AV solutions designed to fit OE Elsafe power rails, table boxes, cable baskets and floor boxes. QikFIT will clip directly into the PRODIGY cable basket or can be panel mounted using the OE Elsafe thick panel frame. Available in white or black as standard. A large range of data/AV options available on request.



PACE power rail fitted with
TUF HP laptop charging

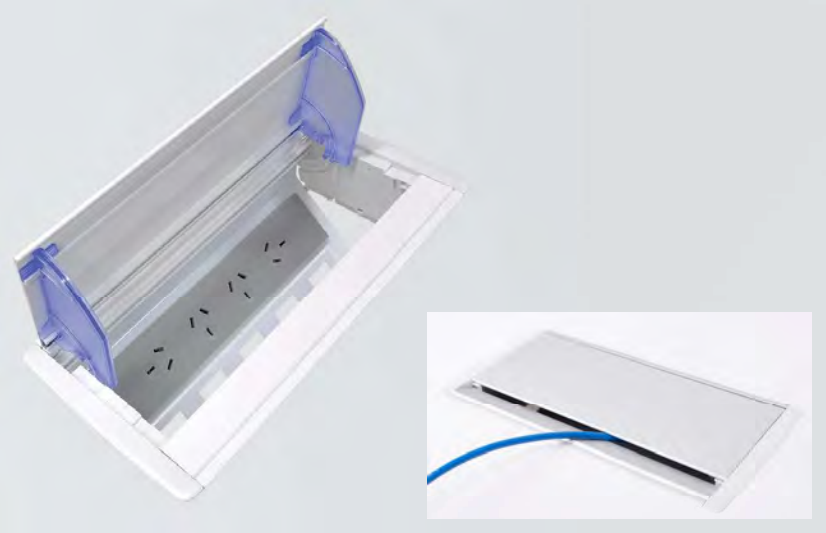
WORKSTATIONS AND OFFICES

PIXELTUF

A stylish organic design which protects against liquid ingress. PIXELTUF fits a standard Ø80mm cutout in surface thicknesses from 1mm to 40mm. PIXELTUF accommodates a wide range of sockets including OE Elsafe's TUF A+C super-fast USB charger and international power sockets with provision for Data and HDMI. Available in black or white with a wide range of coloured surrounds PIXELTUF is optional with TUF HP USB C laptop charging. **CLICK** to see how quick PixelTUF is to install.

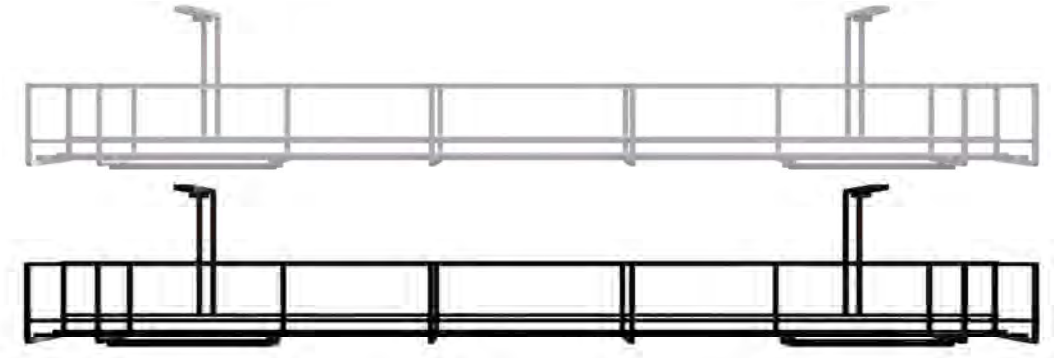
PACE

PACE provides power, data, AV and TUF USB fast charging to desktops and workstations in a stylishly compact and organically shaped power rail. Taking up a minimal amount of desk space, PACE is used in conjunction with the OE QikFIT range to provide a total solution for connectivity at the workstation. PACE can also be specified with TUF HP USB C laptop charging. PACE is available in black or white,



AXXESS

AXXESS is an all in one in-surface power & data management solution with a lid that sits flush when in use. AXXESS has cable guides at both ends to guide cables towards the spring-loaded lip preventing damage. AXXESS is available in two standard lengths, with other lengths available on request. AXXESS will provide any combination of Power, Data, TUF A+C USB fast charging and AV.



PRODIGY

The PRODIGY cable basket offers a unique combination of features: speed of installation, strength, versatility, aesthetics and a configurability unlike anything that has been seen before. The combination of built-in mounting brackets with QikFIT power, data and AV modules simply clicking into the front make PRODIGY the fastest cable basket to install today.

QIKFIT TUF HP

USB C LAPTOP CHARGING

QikFIT TUF HP provides high powered USB C charging for laptops and mobiles, with the added convenience of the world's first reversible USB type A port, for first time connection, every time. Compact but powerful QikFIT TUF HP fits neatly into OE Elsafe power rails, table boxes, prodigy cable baskets and is also suitable for panel mounting in lockers. Providing up to 60W of laptop charging power through the USB Type-C port, QikFIT TUF HP also provides fast charging through the USB Type-A port for mobiles and tablets.

TUF HP

SPLIT SYSTEM USB C LAPTOP CHARGING

TUF HP is a revolutionary innovation that splits the power system, enabling compact USB laptop and mobile charging solutions above the surface with the power supply discreetly hidden under the desk, inside cabinetry or fitted into the OE Prodigy cable basket. TUF HP is available in QF5 tiles for power rails and table boxes, 42mm cannister for OE power modules and is also available as an option in PixelTUF. Unique to OE Elsafe is the reversible A port, allowing cables to be connected both ways cutting down on wear or damage from incorrect attempts, maximising the working life of the power module. TUF HP must be paired with the OE QF30PSU (Power Supply Unit) and GST08 lead

REPLACABLE

TUF HP in tile or cannister form is quick and simple to replace using a simple tool. The unique patented benefit of being replaceable makes TUF HP perfect for areas of high traffic (education, hospitality and public spaces) where if damaged through misuse TUF HP is easy and quick to replace. **CLICK** to see how easy it is to replace TUF HP

PORTABLE POWER

QIKPAC batteries offer a new level of flexibility in workspace design by enabling your furniture to be completely mobile. When fitted with QIKPAC portable power, workspace furniture, desks, chairs and tables with integrated electrics can be moved around easily and still remain powered. For a consultation on how QikPAC can be incorporated into your project,

PH: 1300 ELSAFE (357 233) or E: technical@oeelsafe.com.au

COLLABORATIVE SPACES

The secret to creating a successful collaborative workspace is understanding the culture of the organisation and then providing all the necessary tools for the collaboration to happen. When it comes to technology, this often lies in providing easily accessible power, data / AV and media points to places where people meet to work.

PLUTO

PLUTO satisfies a demand for power and data connectivity, in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, smaller meeting rooms and public spaces, PLUTO makes sharing power a pleasure. With 3 outlet positions, Pluto is perfect for a small team to power/ charge all their devices.

PARTNER

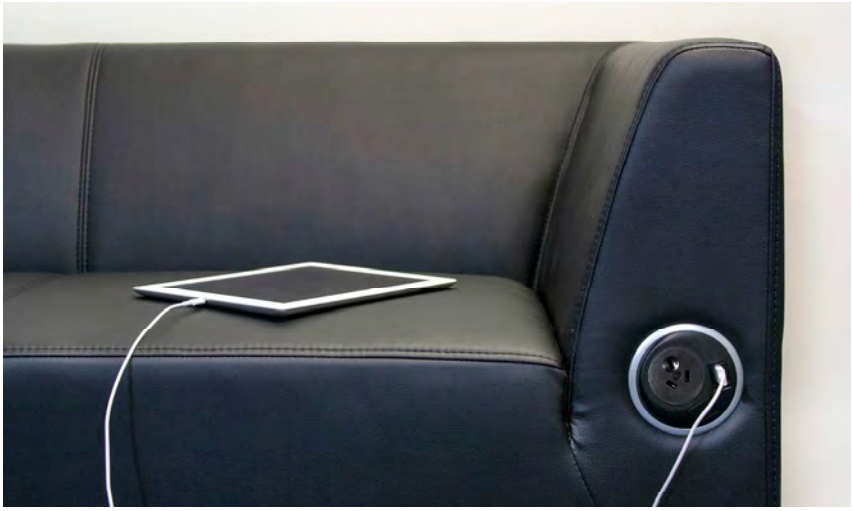
PARTNER is the ultimate solution for discreet personal power to complement any office environment. Hiding away when not in use, PARTNER is the smallest OE Elsafe in-surface box. Utilising our QikFIT range, PARTNER can quickly be configured for Power, Data or AV and will accommodate TUF A+C USB fast mobile and laptop charging.

PANDORA

PANDORA is a stylish new solution from OE Elsafe providing in-surface power, data and USB fast charging to multiple users - beautifully. Fitting neatly into a Ø128mm cutout with a near flush profile when closed, PANDORA rotates open to provide 360° socket access and can be configured with any combination of Power and TUF PD USB fast charging plus the option of a single data socket. TUF HP USB C laptop charging option available.

PIXEL

A stylish organic design which protects against liquid ingress. PIXEL fits a standard Ø80mm cutout in surface thicknesses from 1mm to 40mm. PIXEL accommodates a wide range of sockets including TUF USB laptop and mobile charging and international power sockets with provision for Data and HDMI.



PHASE

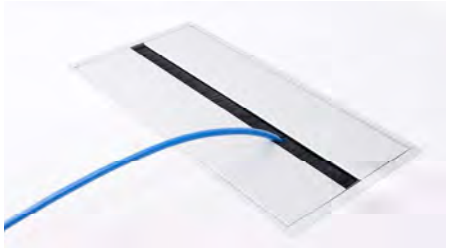
Stylish, compact & robust, PHASE is designed for on or under surface mounting wiith options for both Power and TUF USB laptop and mobile fast charging. PHASE provides personal charging options in a wide range of applications. PHASE is available in either white or black with your choice of grey or black socket fascias.

MEETING ROOMS

Whether it's a small break-out room or a boardroom which is designed to be the showpiece of the office, a meeting room deserves particular attention. Our large range of in-desk boxes will suit the most sophisticated boardroom and can be specified with any combination of Power, Data / AV and USB fast charging.

PEAK

PEAK with its eye-catching "floating surface" design, is an elegant new approach for providing power, data and AV connectivity in meeting tables. Available with 6 or 8 sockets.



TARDIS

The TARDIS in-surface table box has been designed to provide a stylish, contemporary & practical Power, Data, AV and USB laptop / mobile charging solution. With an anodised aluminum finish, TARDIS comes in two standard sizes with longer lengths available on request.

AXXESS PLUS DUO

The Axxess PLUS DUO is a frameless, perfectly flush, in-surface box that allows access from both sides. Axxess PLUS Duo can be veneered to match any table surface, creating a top-of-the range stylish and functional solution designed to perfectly complement any boardroom table or collaborative workspace.

ULTRA

ULTRA drop in table box is a complete Power, Data, AV and USB laptop / mobile charging solution. Double sided to provide services to both sides of the table, ULTRA also has a unique fitting system to ensure the quickest installation possible, both new and retro. Full or Duo Mini sizes available.

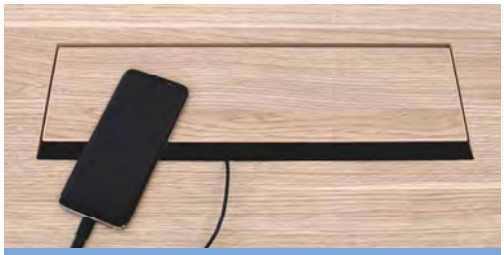
MEETING ROOMS

PARTNER

PARTNER is the ultimate solution for discreet personal power to complement any office environment. Flush and minimal when not in use, PARTNER is the smallest OE Elsafe in-surface table box. Utilising our QikFIT range, Partner can quickly be configured for Power, Data or AV and will accommodate USB A+C laptop and mobile charging. PARTNER is suitable for flip tables.

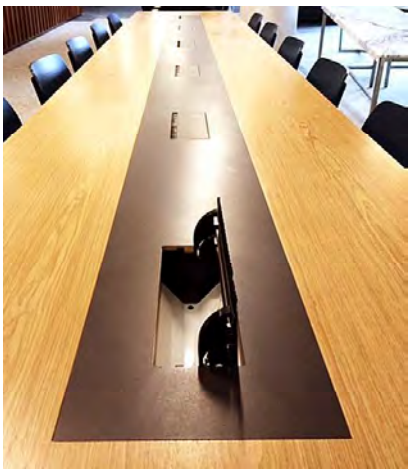
PHASE

PHASE is a compact and robust power module designed for on or under surface mounting. PHASE can be configured with two standard power sockets, two USB fast charging sockets or one of each. TUF HP USB laptop charging option is also available. Providing discreet, convenient power PHASE comes in black or white with a choice of grey or black socket fascias.



ELITE

ELITE is a premium quality in-surface table box that incorporates the existing surface material as the lid, providing a professional looking flush finish, ideal for desks, boardroom and meeting tables.



AXXESSPLUS

Developed to satisfy the most discerning user, AxxessPLUS maintains the superb finish of the most luxurious desks or boardroom tables, whilst providing easy access to power and data services. Available in either anodised aluminium or with a veneered finish.

AXXESSPLUS DUO

AxxessPLUS DUO represents a top-of-the range stylish and functional solution designed to perfectly complement any boardroom table or collaborative workspace. Duo is available in black, white or naturally anodised aluminium or can be veneered to match any table surface, creating a top-of-the range stylish and functional solution.
AxxessPLUS DUO is available in 302 mm or 442 mm lengths with longer custom lengths available by request.

PRISM

A versatile in-desk box which sits flush to the worktop allowing full use of the workspace. Suitable for meeting tables and other locations where space or uncluttered appearance is important.

OPEN/PUBLIC SPACES

Public areas such as schools, universities, libraries, transport terminals and lobbies are increasingly looking to provide recharge facilities. These are also the places where the equipment comes under high volume use. Our power and TUF USB fast charging units are built to take that pressure.

PLUTO

PLUTO satisfies the demand for power and data connectivity, in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, meeting rooms, public spaces, libraries, education or anywhere power is needed. With 3 sockets, Pluto offers a choice of configurations enabling power delivery suited to any environment. PLUTO makes sharing power a pleasure.

PIP

Eight colours available

Designed to provide convenient power and USB fast charging anywhere. TUF-R enables PIP to be the perfect option for public spaces as the cartridge can be simply and quickly replaced when required. White, black, silver or colour options.

REPLACEABLE TUF-R

USB chargers are probably the most utilised piece of equipment in public spaces at airports and transport terminals, education facilities, exhibition and conference facilities and libraries. And, like light globes, the aspiration of Facilities and Maintenance Managers is that they can be changed without the need to call an electrician. And, if the technology changes, they can be upgraded just as easily.

Our patented TUF USB fast charging series represents a revolution in charging technology - and just another example of OE Elsafe Innovation.

CLICK to see how easy it is to replace TUF-R

OPEN/PUBLIC SPACES

WIRELESS FAST CHARGING ARC-80

Commercial grade, robust and powerful, ARC-80 provides a wireless charging solution perfectly suited to high usage areas. Sitting almost flush when installed & taking up minimal surface ARC-80 will provide a full charge or quick boost when you need it the most.

- 10 Watts of charging power
- Fast charge Apple (7.5W)
- Fast charge Samsung (10W)
- Premium design
- Installs in Ø80mm cutout
- Qi Certified

PANDORA

PANDORA is a stylish new solution from OE Elsafe, providing in-surface power and TUF PD super-fast USB charging to multiple users - beautifully. Fitting neatly into a Ø128mm cutout with a near flush profile when closed, Pandora rotates open to provide 360° socket access to power.

PIXEL

A stylish organic design, which protects against liquid ingress. Pixel fits a standard Ø80mm cutout in surface thicknesses from 1mm to 40mm. Pixel accommodates a wide range of sockets including TUF A+C super-fast USB charging and international power sockets with provision for data and HDMI.

PLN Group Pod Seat with Pixel

PIXEL-8

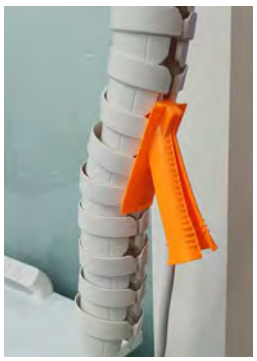
PIXEL-8 adds a splash of colour to any environment and meets the growing need for easily accessible connectivity in informal areas. Perfect for breakout areas, public spaces, hotel rooms, libraries or anywhere power and fast charging is needed. PIXEL-8 comes in black or white with 8 coloured band options.

CABLE MANAGEMENT

Workspace design is changing rapidly with endless combinations of dedicated, shared and open spaces. The challenge of providing power, data and AV points and their associated cabling, is an increasingly sophisticated science.

In addition to being a design challenge, effective cable management means a safe, efficient workspace. OE Elsafe are cable management experts with a range of approaches designed to satisfy all your requirements. From the innovative, award-winning Cable Snake® range to our own Prodigy cable basket system, our aim is to provide power, data and AV in the right place, with the least intrusion into the working environment. Our team are available to assist in the design process to ensure you get the most effective, efficient and flexible solution.

PATHFINDER



FAST install with the OE Clip & Zip tool. **CLICK** to see in action!

The OE Elsafe Pathfinder system is the result of 30 years of experience in supplying cable management products and offers a complete floor to desk, floor to ceiling, or ceiling to desk, vertical cable management solution.

PRODIGY smart cable management provides speed of installation, strength, versatility, aesthetics and configurability unlike anything that has been seen before within a cable management system. PRODIGY comes with built in mounting brackets and once installed the OE Elsafe QikFIT power and data modules simply click into place making Prodigy Smart Cable Management the quickest basket to install on the market today. CLICK here to see how quick PRODGY is to install.

PRODIGY SIZES

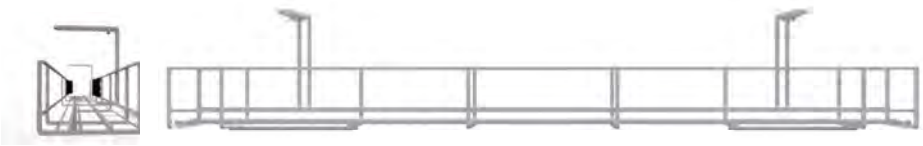
PRODIGY cable baskets are available in black, white or grey.

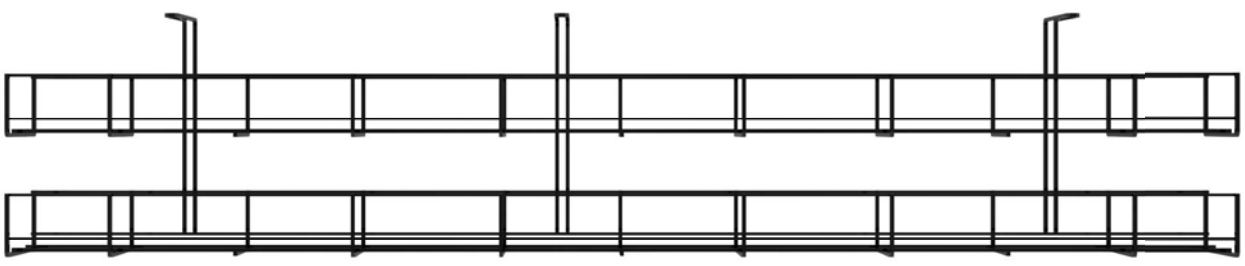
All PRODIGY cable baskets are stackable to create a 750, 950, 1250 and 1550 double tier solution

Single Tier baskets available in 750, 950, 1250 and 1550 lengths.

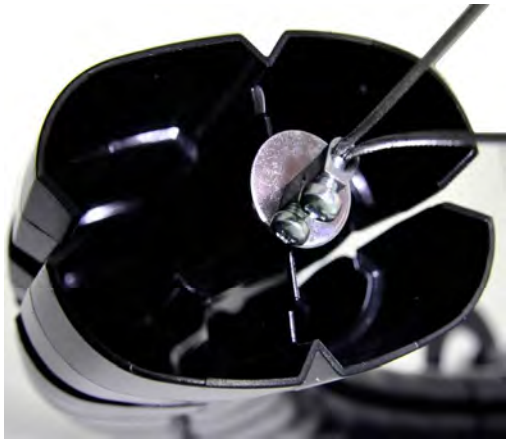
Double Tier baskets available in 1250 and 1550 lengths.

300 wide baskets available in 950, 1250 and 1550 lengths





CABLE MANAGEMENT



MESSENGER

Ideal for floor to ceiling applications, Messenger provides 2 discreet compartments for total power and data segregation and protection. but with the ease of zip-in/zip-out cable installation and removal.

CABLE CLEATS

The OE Elsafe Cable Cleat, available as single or double sided provides a flexible, easily installed horizontal cable management solution for low clearance under desk areas and in the double sided format, manages power and data separately.

SUPERFLEX

Superflex is a flexible vertical umbilical with 4 separate compartments for segregation. Superflex has a breaking strain of 150kg and is available in a wide range of colours.

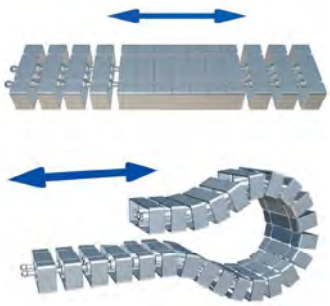
CABLE SNAKE®

Cable Snake® is a fully configurable range of umbilicals and accessories designed to provide a unique solution to the provision of power and data to sit-to-stand and height adjustable desks. Providing 2D and 3D flexibility, Cable Snake® can also provide rigid protection when required. Cable Snake® is available in a range of profiles including cable snake® pro, an extremely low profile horizontal cable protection range.

CLICK to see how easy cable snake® is to install on height adjustable desks.

CABLE-SNAKE® CUBE

Smooth caterpillar track operation. Ideal for sit to stand and height adjustable desks. Ceiling to desk and desk to floor kits available. All cable snake® umbilicals come in black, white or silver and have a unique magnetic under desk mounting option. Compatible desk grommets are also available for through desk installations.



CABLE-SNAKE® CUBE MX

Cable Snake® Cube MX has a larger profile for increased capacity.

CABLE SNAKE® PRO

Cable Snake® PRO is a low profile tread proof cable snake. Cable Snake® PRO is compatible with the solid aluminium profile Easy Bridge for high traffic areas.

OE Elsafe are the **exclusive distributors** for the award winning Cable Snake® in Australia and New Zealand.

FLOOR BOXES

Floor boxes are essential to any space that requires power that does not have direct wall access. OE Elsafe offers a range of options to suit most applications.

OE Elsafe floor boxes are designed for ease of installation in any commercial application, either new fit outs or retro fitted into existing concrete floors, access floors, wooden stage floors and computer floors. Solid plastic or stainless steel lid options, many with recessed lids, permitting carpet to be installed to allow discrete merging with surroundings.

HARRIER

Medium size stainless steel lid box with a capacity of up to 8GPO or a combination of GPO, Starter and Data/AV. Can be used in concrete floors with carpet or in a raised floor. Requires a shallow screed depth of only 70mm.

CONDOR

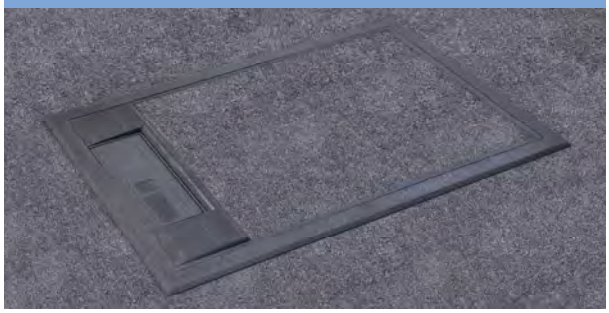
Large size plastic lid floor box with a capacity of up to 8GPO and 8 data/AV or a combination thereof. Condor can be used in concrete floors with carpet or in raised floors. Requires a screed depth of 100mm.

RAVEN

Small stainless steel lid floor box, with a medium capacity of up to 4GPOs and 8 Data/ AV or Starters. Raven is OE Elsafe's shallowest screed floor box at just 60mm.

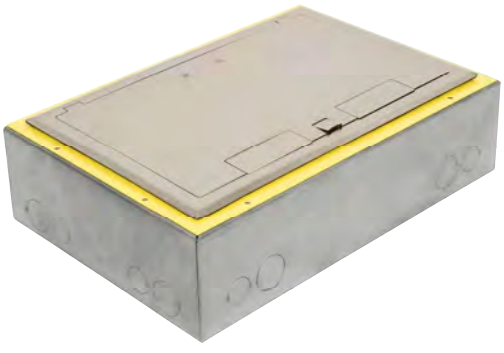
CARDINAL

Cardinal is a small plastic lid floor box with a medium capacity of up to 4GPO and 8 Data/AV or starters. Use in concrete floors with carpet or in a raised floor. Cardinal is the only box for use in a wooden floor. Shallow screed depth of only 70mm.



EAGLE

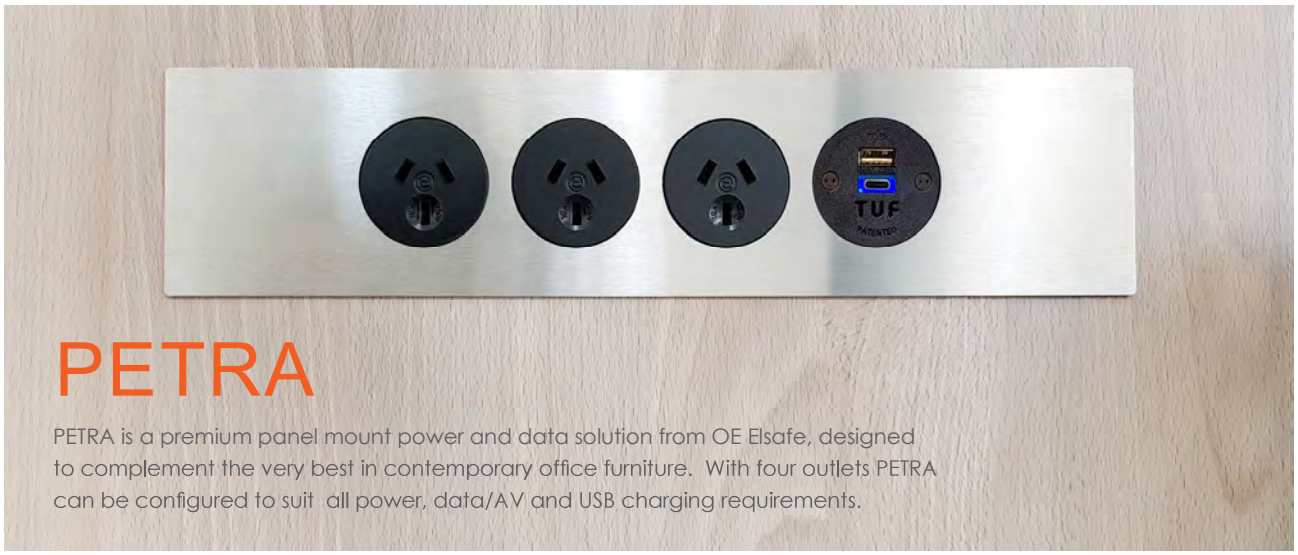
OE Elsafe's largest size stainless steel lid floor box with a capacity of up to 12GPO and 10 Data/ AV or a combination thereof. All 4 internal sides can accept Power, Data and/or AV. Can be used in concrete floors with carpet or in raised floors. Screed depth is 100mm to allow for larger capacity. Soft close lid.



PREMIUM
STAINLESS STEEL RANGE

PODIUM

PODIUM offers a contemporary low profile power solution for workstations, public and private areas where AC power outlets, USB charging and data/ AV connectivity are required. Constructed from extruded aluminum, with brushed stainless steel faceplate and endplates.



PETRA

PETRA is a premium panel mount power and data solution from OE Elsafe, designed to complement the very best in contemporary office furniture. With four outlets PETRA can be configured to suit all power, data/AV and USB charging requirements.

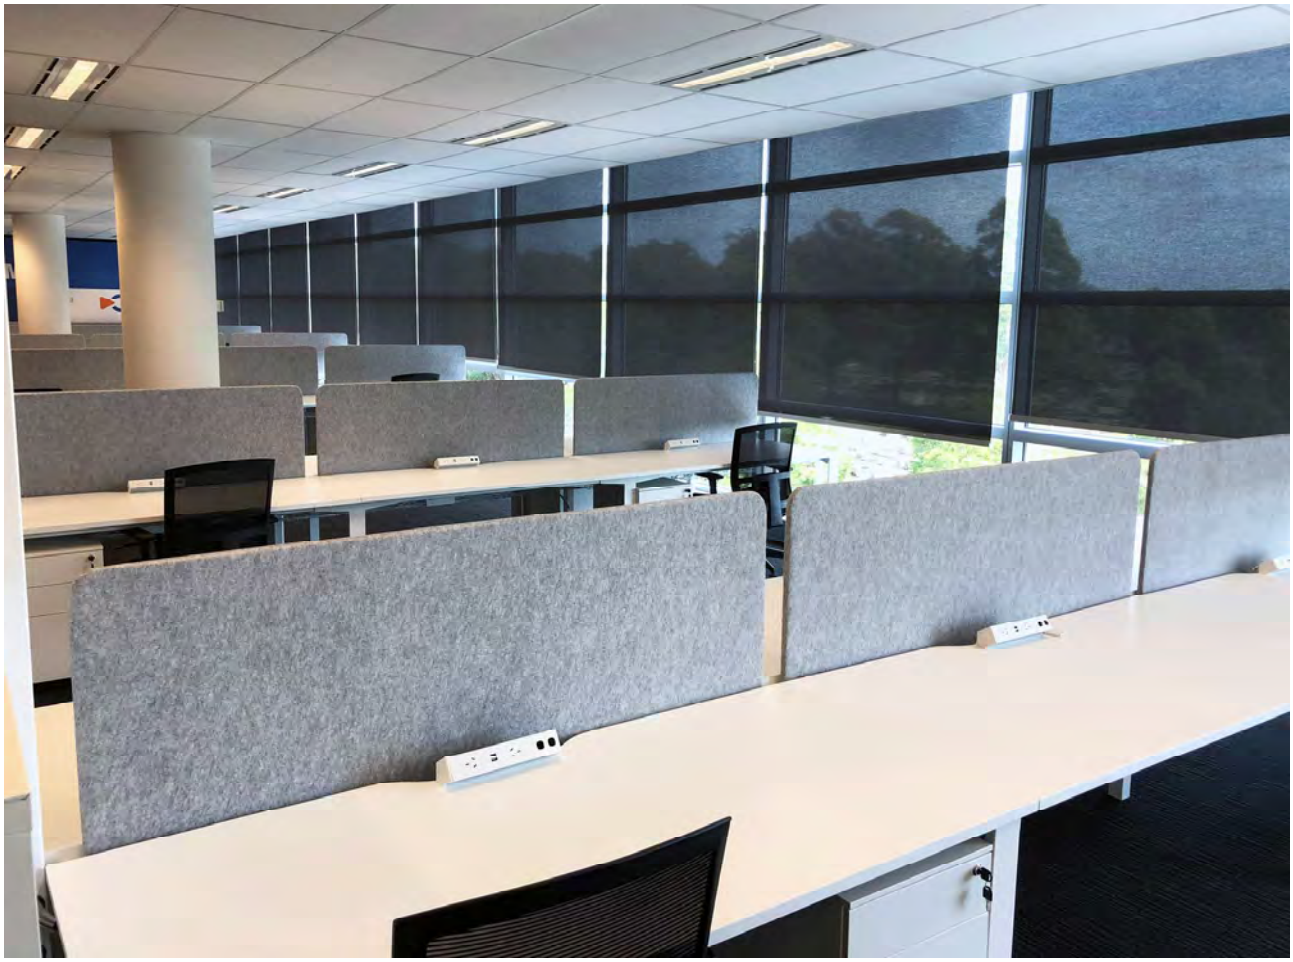
PEAK

PEAK with its eye-catching "floating surface" design, is an elegant new approach for providing power and data connectivity in meeting tables. Available with 6 or 8 sockets, Peak can be configured with a wide range Power, TUF PD USB fast charging, Data and AV options.

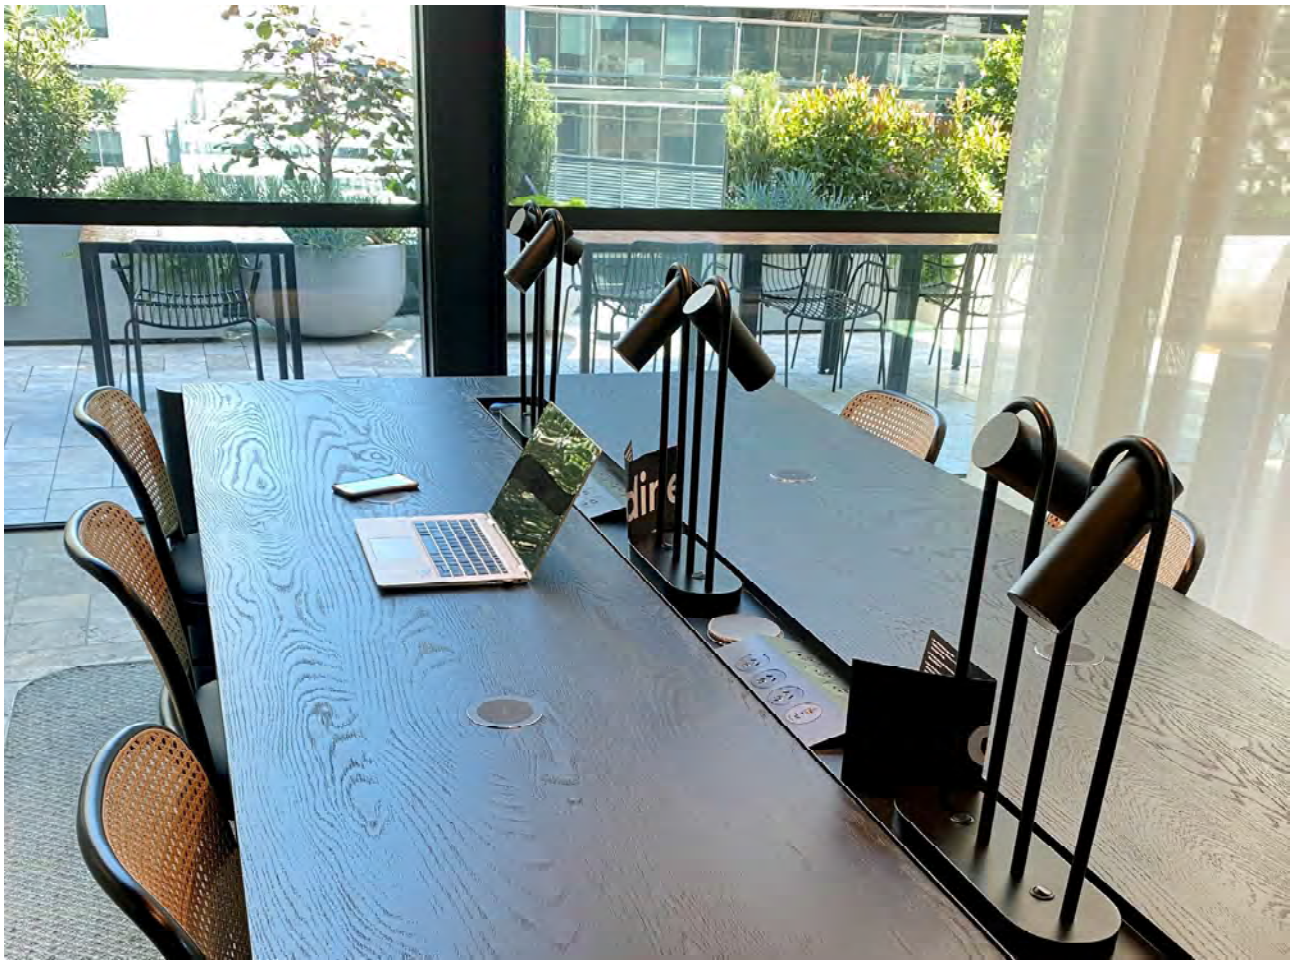
PROJECT GALLERY

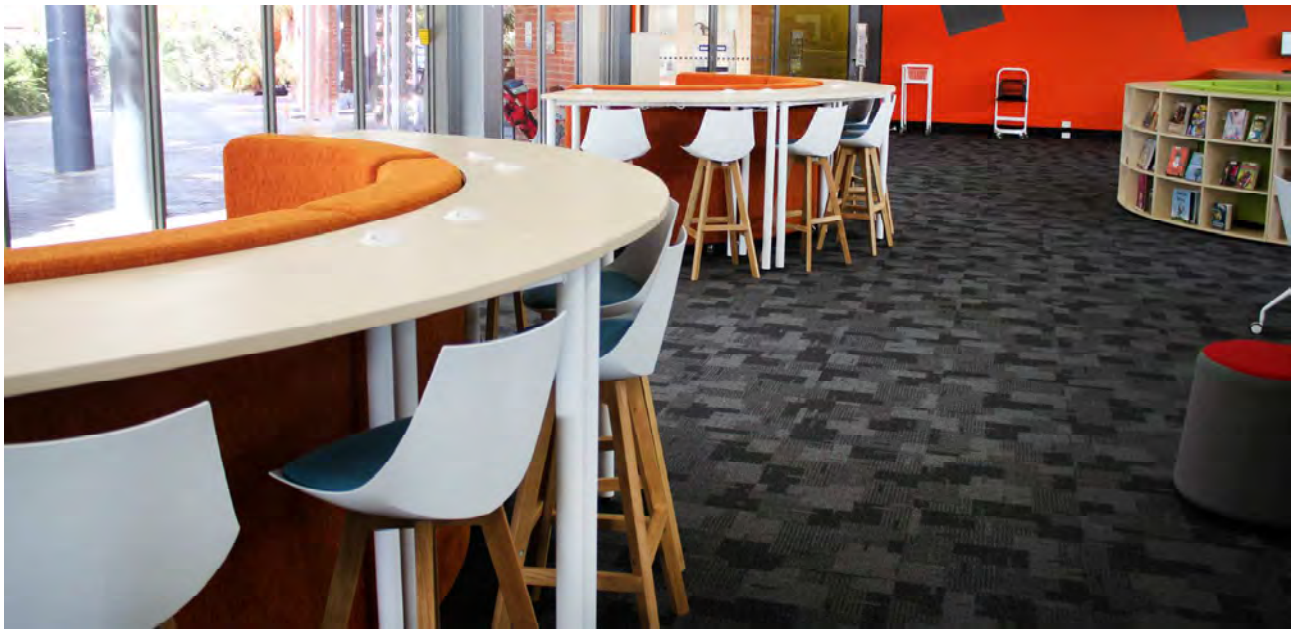
OE Elsafe have a long history of assisting clients to design and manufacture their own connectivity solutions, not just by reconfiguring our own products to suit a specific application but also by creating completely new products for their sole use, allowing them to find solutions in harmony with their own product ranges and projects.

Need a custom designed product? Speak with OE Elsafe's technical team to see what we can create for you. **CLICK** here to Check out our Projects page.

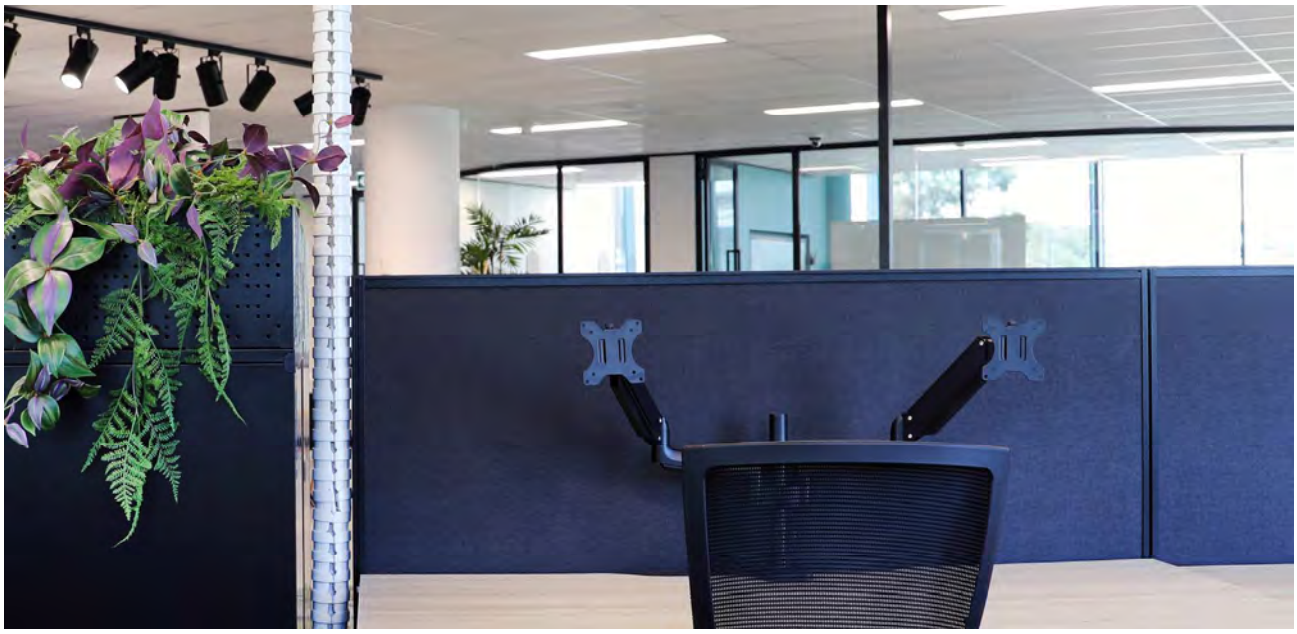


PROJECT GALLERY





PROJECT GALLERY



PLUTO

Pluto brings life and colour to any interior space. Workstations, hot desks, meeting rooms and larger areas such as university galleries benefit from the pleasing aesthetics and practicality of Pluto. Pluto is available in black, white, or a range of colours.

ADVANCED RESONANT CHARGER

Wireless Charging

elsafe
always innovating

ARC-80

The OE Elsafe ARC-80 in-desk wireless fast charger offers the ultimate in convenient, cable free charging. ARC-80 features;-

- ✓ Premium design and commercial grade
- ✓ Full charge or a convenient quick boost
- ✓ Powerful 10 Watts charging power
- ✓ Fast charge for Samsung (10W)
- ✓ Fast charge for Apple (7.5W)
- ✓ Easy installation into Ø80mm cut-out
- ✓ Qi certified

Commercial grade hidden wireless charger

The ARC-H hidden wireless charger offers the most advanced wireless charging technology available today. Completely hidden once installed ARC-H features;-

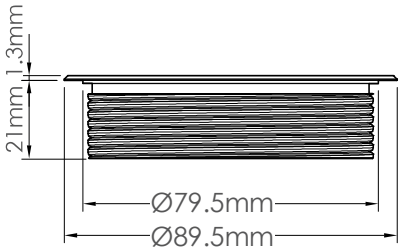
- ✓ 15-30mm charging range
- ✓ No routing for surfaces up to 25mm
- ✓ Powerful 10 Watts charging power
- ✓ Fast charge for Samsung (10W)
- ✓ Fast charge for Apple (7.5W)
- ✓ Easy to install
- ✓ Choice of 4 Decals provided

ARC-H

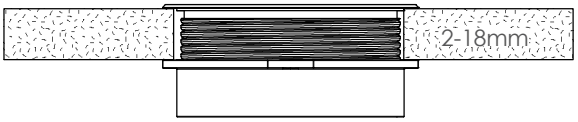
ARC WIRELESS TECHNICAL

ARC-80 Installation

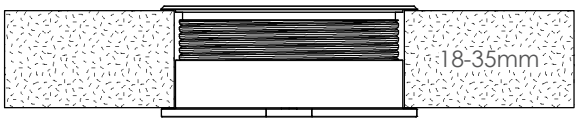
Installation tightening tool.



A) For thinner surfaces, 2-18mm.



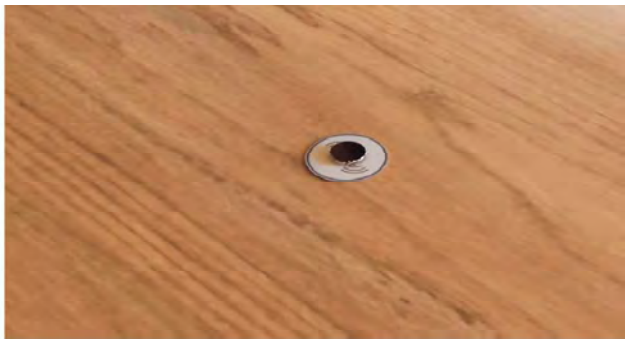
B) For thicker surfaces, 18-35mm (Turn fixing collar upside down)



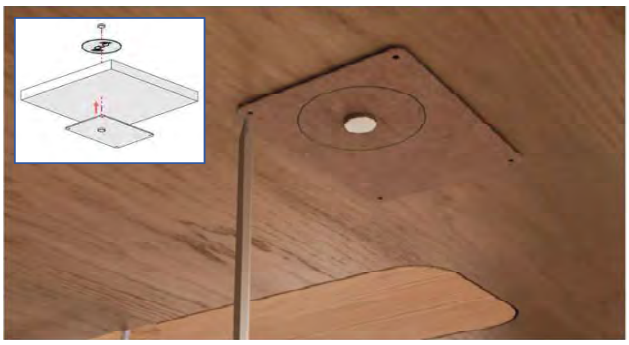
Fit ARC-80 into an Ø80mm cutout and tighten the fixing collar using the installation tightening tool.

ARC-H Installation

Position your wireless charging marker decal on the desk where you would charge your phone. Under desk / surface must be clear of framing.



Remove the backing from the decal marker and stick firmly onto the clean surface. Place the Alignment Magnet in the centre of the sticker.



Hold the top alignment magnet and use the alignment template underneath the desk to find the correct position for the ARC-H. (magnet to magnet) Use a pencil to mark the screw hole locations.

Once the screw hole locations are marked, screw the ARC-H wireless charger into place. Plug in the power supply, use cable clips to manage any loose cables.

Cable-Snake® Pro System

Highly tread-proof

Low profile design

Integrated 2D/3D functionality

Easy-Zip System for tool-free cable threading

THE HIGH CAPACITY CABLE MANAGEMENT SYSTEM

- Ideal to protect cables in corridors and heavy foot traffic areas
- Low profile, arc design sits flat to the ground making it highly tread-proof
- Flat back enables easy flat surface mounting (wall or under desk)
- Compressible for closed channel applications (120kg weight limit)
- Extendable for maximum flexibility (80kg weight limit)
- 2D/3D functionality rolls like a caterpillar track ideal for height-adjustable sit to stand desks
- Available in black, white, silver & secure (black and yellow stripes
- Compatible with Cable-Snake® Cube and Cube MX

ACCESSORIES

- **Easy-Bridge:** brushed aluminium cable bridge where extreme loads need to be considered (corridors and other heavy foot traffic areas)
  - Easily clicks in with Cable-Snake® Pro
  - Available in silver in 0.5m and 1.0m lengths

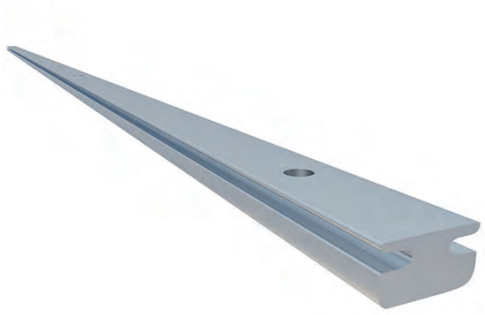
Easy-Clamp System



Discreet under desk mounting

Ideal for open backed desks

Flexible modular system

Simple to install

- Minimalist yet effective modular horizontal cable management system
- Easy attachment of electrical power modules and cable management to a slim and solid aluminium mounting rail by a simple locate and rotate action
- Perfect for open backed desks and small meeting tables where conventional suspended tray cable management would be visually intrusive
- Easily compatible with Cable-Snake® Cube, Cube MX and Orbit for a complete floor to desk cable management solution
- The answer to a variety of different work station needs enabling easy and secure office power up within minutes
