always innovating

# OE Elsafe Technologies

A collection of OE Elsafes most popular products and technologies; bringing innovation into commercial and public spaces both in Australia and worldwide.

## Always Innovating

We have been designing products and technologies for over 30 years leading the market in cutting edge solutions. At any time we have up to 20 new projects in development so we can always offer the latest and best technologies to our customers.

## Design to Order

If we don't have exactly what you need, contact us so we can work with you to design and create the perfect solution for your space.

# SOFT WIRING AT A GLANCE

OE Elsafe offers an extensive range of desktop rails designed to deliver any combination of Power, Data, AV and USB charging. **QIKSILVA** is designed for use with OE Elsafe's Qikfit Range, offering a compact minimalist solution.

## ON SURFACE SOLUTIONS

## UNDER SURFACE SOLUTIONS

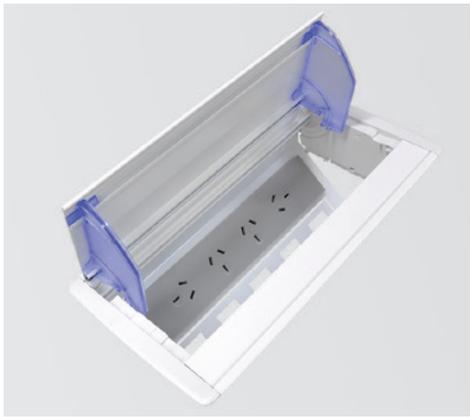

OE Elsafe's own **J COUPLER** is the safe, thoroughly tested method of connecting our units into the power system or to each other. An OE Elsafe innovation providing surge protection to protect your investment.

**PRODIGY** brings a new dimension to cable routing within the office. Its unique design enables quick and simple installation and delivers a strong and safe application within the office environment.

Wall Starter

OE Elsafe offers a range of stylish, easy to install, all in one power and data management solutions. **AXXESS** is an in-surface solution suitable for workstations, meeting rooms and conference tables.

OE Elsafe also specialises in personal power and data connectivity in both the workplace and public spaces. OE Elsafe's **PIXEL** is a compact practical solution fitting neatly into a wide range of furniture including seating.

OE Elsafe's TUF-R replaceable option makes replacing or upgrading easy, using a simple tool. TUF-R in OE Elsafe's **PLUTO** future proofs your investment, -upgrade or replace the TUF-R charging socket when required.

## IN SURFACE SOLUTIONS

## CABLE MANAGEMENT

OE Elsafe's umbilical cable management options will suit any application including sit to stand and height adjustable workstations. **CABLE SNAKE**® is a unique cable management system exclusive to OE Elsafe.

OE Elsafe's large range of floor boxes are practical, discreet and are simple to install in either new or existing spaces. OE Elsafe floor boxes can be configured with any combination of Power, Data/AV and starters

# WORKSTATIONS AND OFFICES

Distributing power and data to a large number of workstations, with the flexibility to change easily and safely, is the key to efficient use of space.

Our ability to source power and/or data from either walls, ceilings or floors and to manage that distribution efficiently is the key to our success. The breadth of our range of solutions is what enables us to more than satisfy your requirements now and to the future.

## PIXEL

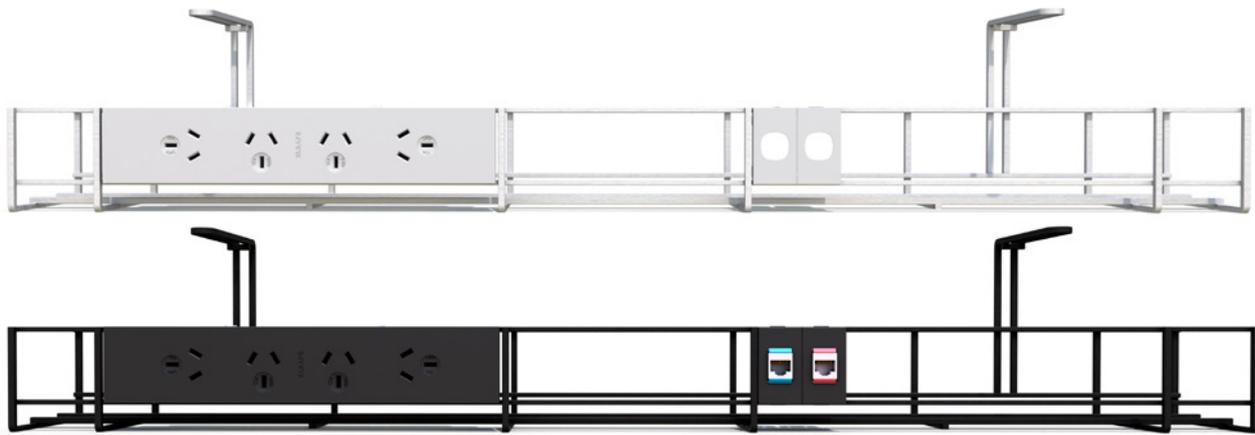

A stylish organic design which protects against liquid ingress. Pixel fits a standard 80mm aperture in surface thicknesses from 1mm to 40mm. Pixel accommodates a wide range of sockets including OE Elsafe's TUF A+C super-fast USB charger and international power sockets with provision for Data and HDMI. Available in black or white with a wide range of coloured surrounds.

## QIKSILVA

Modular on surface products like our QikSilva range, are designed to house any combination of power, data or AV components making them ideal for workstations and hot desks.

## PRODIGY

The Prodigy cable basket offers a unique combination of features: speed of installation, strength, versatility, aesthetics and a configurability unlike anything that has been seen before. Prodigy is simply the smartest basket on the market, less is so much more.

# WORKSTATIONS AND OFFICES

## PEGASUS

Taking up less than 50mm of desk space, Pegasus is the ideal solution for a minimalist approach. Totally compatible with our QikFit series, Pegasus is available in 2 standard sizes and can be configured to take power, TUF A+C and data outlets.

## PHOENIX

Our most cost effective on surface rail, designed to take any of our Qikfit range. Phoenix comes in standard lengths to accommodate either 2 or 4 socket outlets and a variety of TUF A+C, Data or AV inputs. Phoenix can also be customized to any length and configuration that may be required. Phoenix is an anodised aluminium rail with contrasting black or white end caps and fascias.

## PANDA

In distinctive high contrast black and white, Panda's small footprint creates a stylish personal power and data solution with full functionality. Panda delivers any combination of Power, Data or AV from its 2 socket spaces.

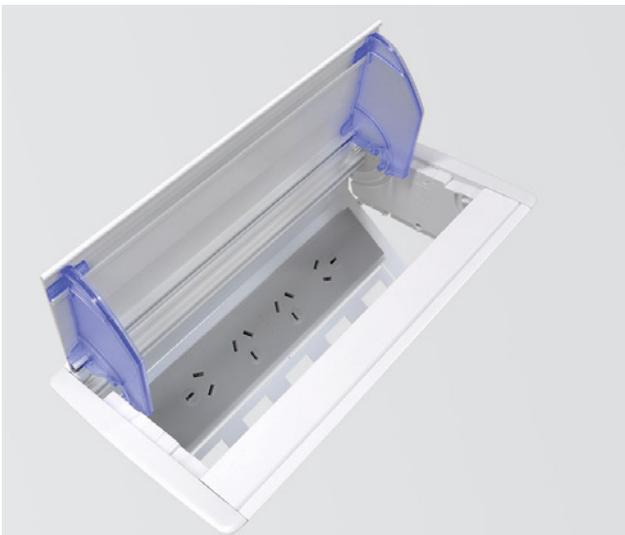

# QIKFIT

The OE Elsafe Qikfit Series has been designed to fit industry standard cut-outs. Qikfit provides a range of power and data solutions either mounted in-surface with a fascia plate, in floor or desk box, on-surface in one of our many rails or designed to clip into an under desk basket. Qikfit is available in two standard sizes and can be expanded with Data/AV files or Qikfit TUF Single units. Available in white or black as standard.

# AXXESS

Axxess is an all in one in-surface power & data management solution with a lid that sits flush when in use. Axxess has cable guides at either end to guide cables towards the spring-loaded lip to avoid any damage. Available in 2 standard lengths, Axxess boxes can be linked to provide almost any length desired. Axxess will provide any combination of Power, Data, TUF A+C and AV.

# COLLABORATIVE SPACES

The secret to creating a successful collaborative workspace is understanding the culture of the organisation and then providing all the necessary tools for the collaboration to happen. When it comes to technology, this often lies in providing power, data, telecoms and media access which allows the greatest range of access points and variation in working modes in a shared area.

## PLUTO

PLUTO satisfies a demand for power and data connectivity, in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, smaller meeting rooms and public spaces, PLUTO makes sharing power a pleasure. With 3 outlet positions, Pluto is perfect for a small team to power/charge all their devices.

## PARTNER

PARTNER is the ultimate solution for discreet personal power to complement any office environment. Hiding away when not in use, Partner is the smallest OE Elsafe in-surface box. Utilising our Qikfit range, PARTNER can quickly be configured for Power, Data or AV and will accommodate TUF A+C USB fast charging.

# PANDORA

PANDORA is a stylish new solution from OE Elsafe providing in-surface power and super-fast USB charging to multiple users - beautifully. Fitting neatly into a 128mm grommet hole with a near flush profile when closed, Pandora rotates open to provide 360° socket access and can be configured with any combination of Power and TUF A+C fast charging.

# PIXEL

A stylish organic design which protects against liquid ingress. Pixel fits a standard 80mm aperture in surface thicknesses from 1mm to 40mm. Pixel accommodates a wide range of sockets including TUF A+C super-fast USB charging and international power sockets with provision for Data and HDMI.

# PHASE

Stylish, compact & robust, Phase is designed for on or under surface mounting. With options for both Power and TUF A+C TWIN USB FAST charging. Phase provides personal charging options in a wide range of applications.

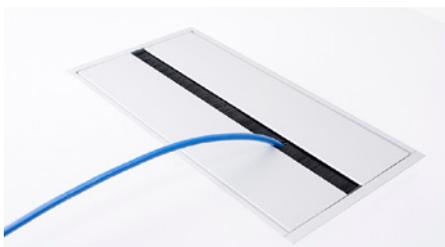

# MEETING ROOMS

Whether it's a small break-out room or a boardroom which is designed to be the showpiece of the office, a meeting room deserves particular attention. Our in-desk boxes will suit the most sophisticated boardroom and can be set singly or in gangs. When not in use, they are sleek and unobtrusive.

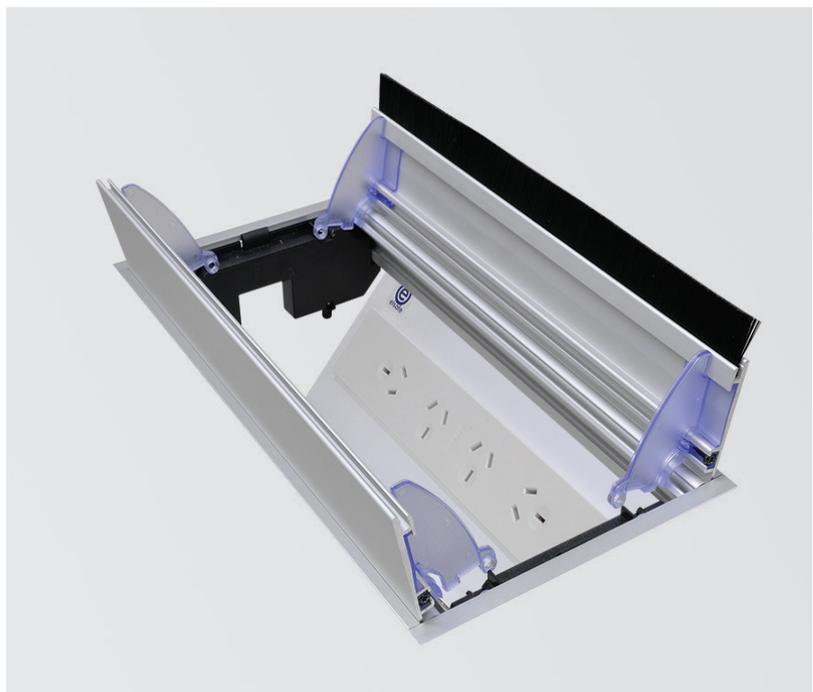

## PEAK

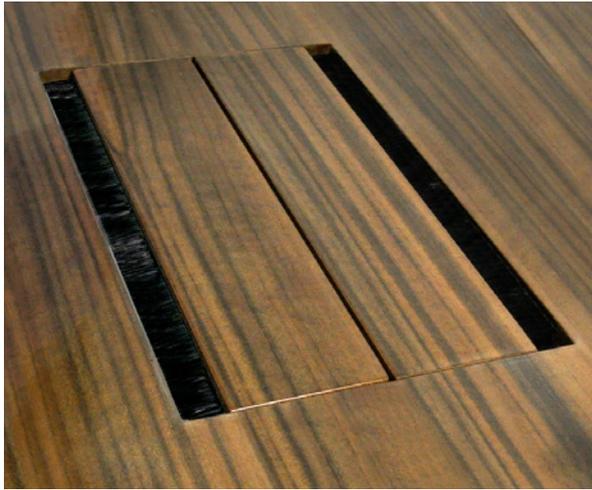

PEAK with its eye-catching "floating surface" design, is an elegant new approach for providing power and data connectivity in meeting tables. Available with 8 sockets, Peak can be configured with a wide range of Power, TUF A+C USB fast charging, Data and AV options.

## TARDIS

The TARDIS in-desk box has been designed to provide a stylish, contemporary and practical Power, USB Fast Charging, Data, and AV solution. With an anodised aluminum finish, Tardis comes in two sizes and can be banked to provide multiple outlets.

## ELITE

ELITE is a premium quality in-table box that has been designed to incorporate the existing table material as the lid. This results in a professional looking high quality flush mounted box ideal for boardroom tables, conference tables and more.

## AXXESS PLUS DUO

The Axxess PLUS DUO is a frameless, perfectly flush, in-surface box that allows access from both sides. Axxess PLUS Duo can be veneered to match any table surface, creating a top-of-the-range stylish and functional solution designed to perfectly complement any boardroom table or collaborative workspace.

# MEETING ROOMS

## PARTNER

PARTNER is the ultimate solution for discreet personal power to complement any office environment. Flush and minimal when not in use, Partner is the smallest OE Elsafe in-surface box. Utilising our Qikfit range, Partner can quickly be configured for Power, Data or AV and will accommodate A+C TWIN USB FAST charging. Partner is suitable for flip tables.

## PHASE

Stylish, compact & robust, Phase is designed for on or under surface mounting. With options for both Power and TUF A+C TWIN USB FAST charging, Phase provides personal charging options in a wide range of applications.

## PLUTO

PLUTO satisfies the demand for power and data connectivity in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, smaller meeting rooms and public spaces - PLUTO makes sharing power a pleasure. With three socket positions, Pluto is perfect for a small team to power/charge all their devices.

## AXXESSPLUS

Developed to satisfy the most discerning user, AxxessPLUS maintains the superb finish of the most luxurious desks or boardroom tables, whilst providing easy access to power and data services. Available in either anodised aluminium or with a veneered finish.

## AXXESS

Axxess is an all in one in-desk power and data management solution. The AXXESS in desk box is a surface mounted visually attractive and cost efficient in-desk box, designed for easy installation. AXXESS provides power & data solutions to your desktop, work station or boardroom table.

## PLATINUM

A versatile in-desk box which sits flush to the worktop allowing full use of the workspace. Suitable for meeting tables and other locations where space or uncluttered appearance is important.

# OPEN/PUBLIC SPACES

Public areas such as schools, universities, libraries, transport terminals and lobbies are increasingly looking to provide recharge facilities. These are also the places where the equipment comes under high volume use. Our power and USB fast charging units are built to take that pressure.

## PLUTO

PLUTO satisfies the demand for power and data connectivity, in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, meeting rooms, public spaces, libraries, education or anywhere power is needed. With 3 sockets, Pluto offers a choice of configurations enabling power delivery suited to any environment. PLUTO makes sharing power a pleasure.

# PIP

 Eight colours available

Designed to provide convenient power and USB fast charging anywhere. TUF-R enables PIP to be the perfect option for public spaces as the cartridge can be simply and quickly replaced when required. White, black, silver or colour options.

## REPLACEABLE TUF-R

USB chargers are probably the most utilised piece of equipment in areas such as airports and transport terminals, education facilities, exhibition and conference facilities and libraries. And, like light globes, the aspiration of Facilities and Maintenance Managers is that they can be changed without the need to call an electrician. And, if the technology changes, they can be upgraded just as easily.

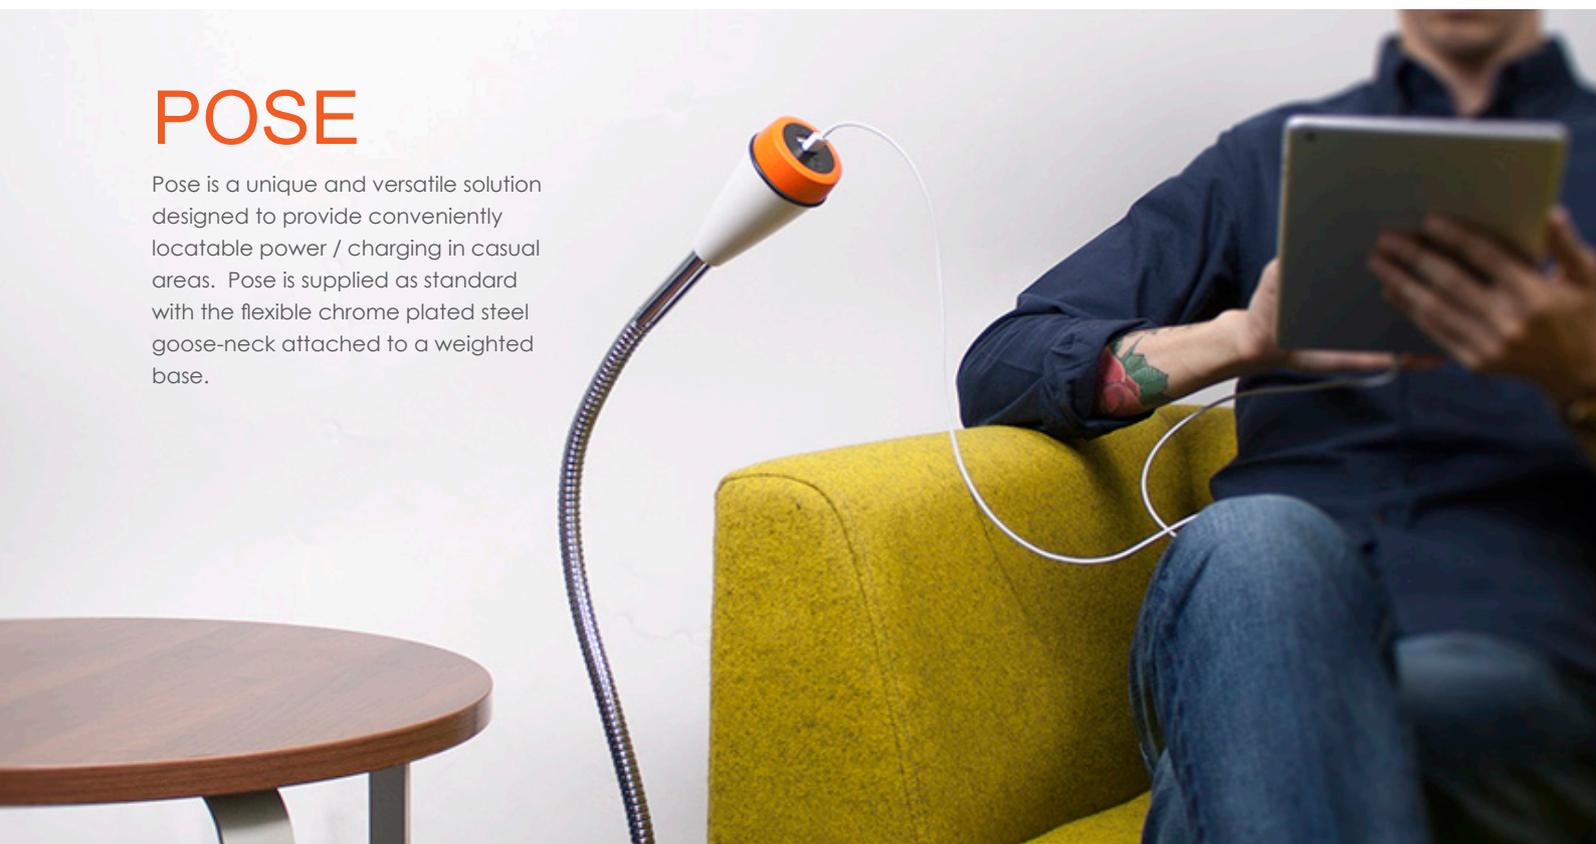

The new TUF A+C replaceable USB fast charging unit is a revolution in charging technology - and just another example of OE Elsafe Innovation.

# OPEN/PUBLIC SPACES

## POSE

Pose is a unique and versatile solution designed to provide conveniently locatable power / charging in casual areas. Pose is supplied as standard with the flexible chrome plated steel goose-neck attached to a weighted base.

## PANDORA

PANDORA is a stylish new solution from OE Elsafe, providing in-surface power and super-fast USB charging to multiple users - beautifully. Fitting neatly into a 128mm grommet hole with a near flush profile when closed, Pandora rotates open to provide 360° socket access to power.

# PIXEL

A stylish organic design, which protects against liquid ingress. Pixel fits a standard 80mm aperture in surface thicknesses from 1mm to 40mm. Pixel accommodates a wide range of sockets including TUF A+C super-fast USB charging and international power sockets with provision for data and HDMI.

PLN Group Pod  
Seat with Pixel

## PIXEL-8

PIXEL-8 adds a splash of colour to any environment and meets the growing need for easily accessible connectivity in informal areas. Perfect for breakout areas, public spaces, hotel rooms, libraries or anywhere power and fast charging is needed. PIXEL-8 comes in black or white with 8 coloured band options.

# CABLE MANAGEMENT

Workspace design is changing rapidly with endless combinations of dedicated, shared and open spaces. The challenge of providing power and data points and their associated cabling, is an increasingly sophisticated science.

In addition to being a design challenge, effective cable management means a safe, efficient workspace. OE Elsafe are cable management experts with a range of approaches designed to satisfy all your requirements. From the innovative, award-winning Cable Snake range to our own Prodigy cable basket system, our aim is to provide power, data and telecoms in the right place, with the least intrusion into the working environment. Our staff are available to assist in the design process to ensure you get the most effective, efficient and flexible solution.

Our latest basket design is set to revolutionise under surface cable management. Prodigy smart cable management provides speed of installation, strength, versatility, aesthetics, configurability and is designed to work with our OE Elsafe Qikfit range. Qikfit simply clicks into place without the need for ties, clips or brackets, making Prodigy Smart Cable Management the quickest installation on the market.

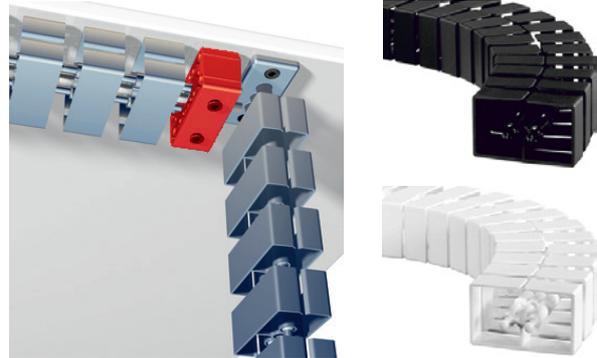

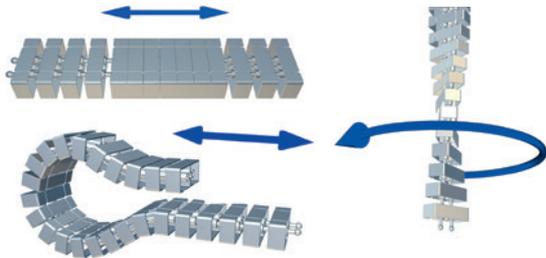

# CABLE SNAKE®

Cable Snake® is a fully configurable range of umbilicals and accessories designed to provide a unique solution to the provision of power and data to sit-to-stand and height adjustable desks. Providing 2D and 3D flexibility, Cable Snake® can also provide rigid protection when required. Cable Snake® is available in a range of profiles and capacities including an extremely low profile horizontal cable protection range.

## CABLE-SNAKE® CUBE

Smooth caterpillar track operation. Ideal for sit to stand and height adjustable desks. Ceiling to desk and desk to floor kits available. All cable snake® umbilicals come in black, white or silver and have a unique magnetic under desk mounting option. Compatible desk grommets are also available for through desk installations.

## CABLE-SNAKE® CUBE MX

Cable Snake® Cube MX has a larger profile for increased capacity.

## CABLE SNAKE® ORBIT

Stylish circular profile (50mm) with a patented bayonet connector. Integrated 2D/3D functionality.

## CABLE SNAKE® PRO

Cable Snake® Pro is a low profile tread proof cable snake® which also fits the solid aluminium Easy Bridge for high traffic areas.

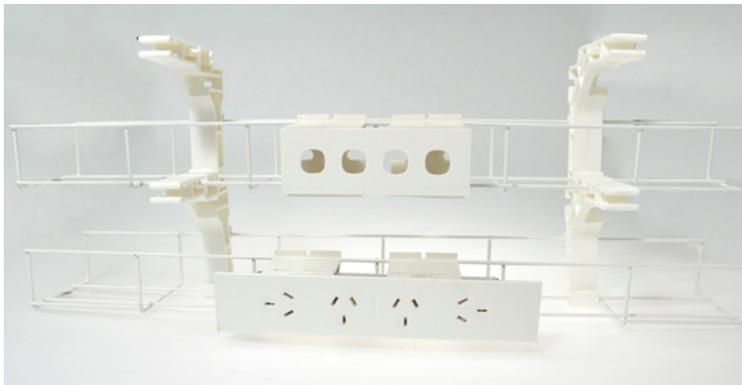

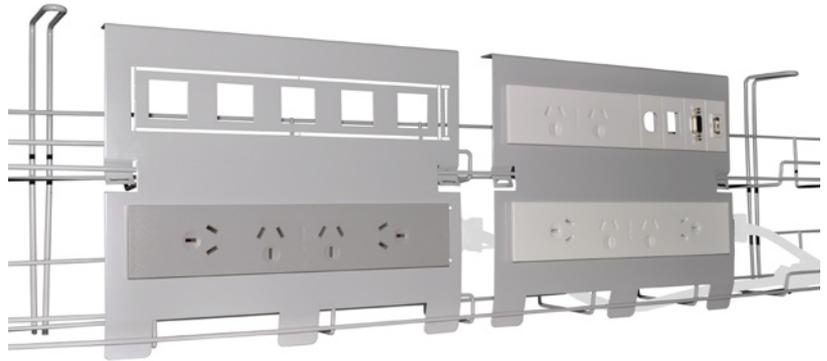

OE Elsafe are the **exclusive distributors** for the award winning Cable Snake® in Australia and New Zealand.

# CABLE MANAGEMENT

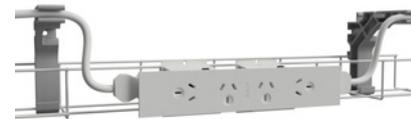

## RUNNER

OE Elsafe's economical cable basket system Runner is available in either single or double tiered models, with the double tier being available in up to 1550mm lengths. Runner is designed to be a stand alone cable containment system or to work with our basket panels.

## PATHWAY

Pathway is our high capacity modular cable basket, available in 600mm and 900mm lengths. It can be double hung to provide power and data segregation and will accommodate a wide range of OE Elsafe power and data units.

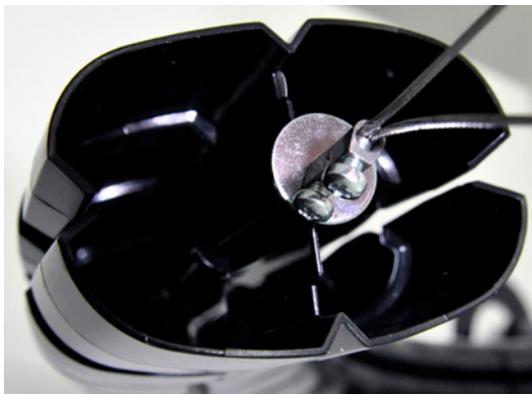

## PATHFINDER

The OE Elsafe Pathfinder system is the result of 25 years experience in supplying cable management products and offers a complete floor to desk, floor to ceiling, or ceiling to desk, vertical cable management solution.

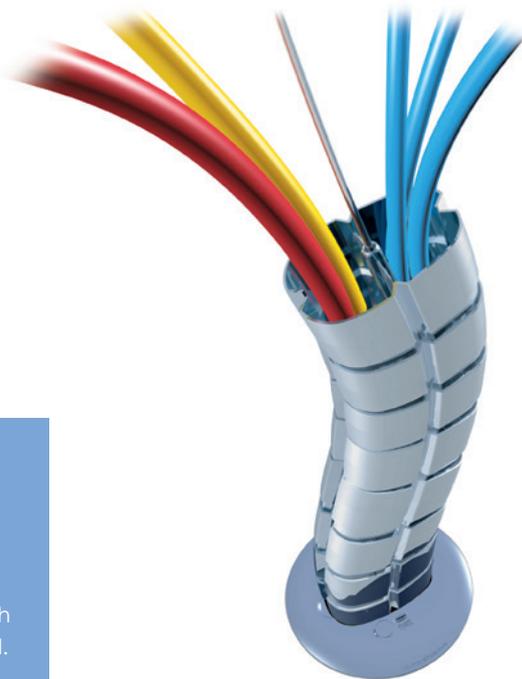

# SUPERFLEX

Superflex is a flexible vertical umbilical with 4 separate compartments for segregation. Superflex has a breaking strain of 150kg and is available in a wide range of colours.

## MESSENGER

Ideal for floor to ceiling applications, Messenger provides 2 discreet compartments for total power and data segregation. Provides full cable protection but with the ease of zip-in/zip-out cable installation and removal.

## CABLE CLEATS

The OE Elsafe Cable Cleat provides a flexible, easily installed horizontal cable management solution for low clearance under desk areas and in the double sided format, manages power and data separately.

# FLOOR BOXES

Floor boxes are essential to any space that requires power that does not have direct wall access. OE Elsafe offers a range of options to suit most applications.

OE Elsafe floor boxes are designed for ease of installation in any commercial application, either new fit outs or retro fitted into existing concrete floors, access floors, wooden stage floors and computer floors. Solid plastic or stainless steel lid options, many with recessed lids, permitting carpet or tiles to be installed to allow discrete merging with surroundings.

## HARRIER

Medium size stainless steel lid box with a capacity of up to 8GPO or a combination of GPO, Starter and Data/AV. Can be used in concrete floors with carpet or in a raised floor. Requires a shallow screed depth of only 70mm.

## CONDOR

Large size plastic lid floor box with a capacity of up to 8GPO and 8 data/AV or a combination thereof. Condor can be used in concrete floors with carpet or in raised floors. Requires a screed depth of 100mm.

# RAVEN

Small stainless steel lid floor box, with a medium capacity of up to 4GPOs and 8 Data/AV or Starters. Raven is OE Elsafe's shallowest screed floor box at just 60mm.

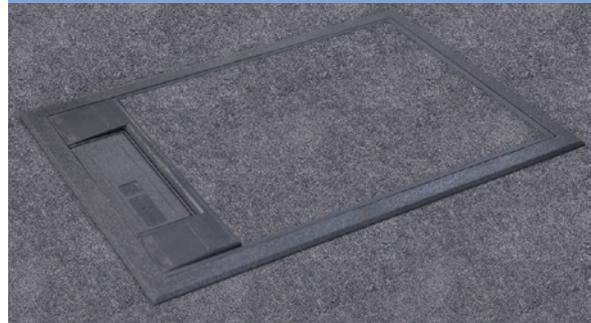

# SWIFT

Swift sits proud of the floor. Compatible with OE Elsafes GPO', Starter, Data/AV or industry standard Power and Data plates. For use on the floor of a room where in-floor installation is not possible.

# CARDINAL

Cardinal is a small plastic lid floor box with a medium capacity of up to 4GPO and 8 Data/AV or starters. Use in concrete floors with carpet or in a raised floor. Cardinal is the only box for use in a wooden floor. Shallow screed depth of only 70mm.

# RAPTOR

Raptor is the ONLY OE Elsafe box that can be used in polished concrete floors as the lid covers the footprint of the screed-box. Raptor is a combined screed-box and floor box in one with a solid stainless steel lid. Capacity up to 8GPO or a combination of GPO, Starter and Data/AV. Screed depth of 87mm.

# FLOOR BOXES

## EAGLE

OE Elsafe's largest size stainless steel lid floor box with a capacity of up to 12GPO and 10 Data/AV or a combination thereof. All 4 internal sides can accept Power, Data and/or AV. Can be used in concrete floors with carpet or in raised floors. Screed depth is 100mm to allow for larger capacity. Soft close lid.

## FALCON

OE Elsafe's Falcon is a small sized floor box with a solid plastic lid. Compatible with industry standard power and data plates. Features a combined screed-box and floor box in one with a screed depth of 88mm.

## HAWK

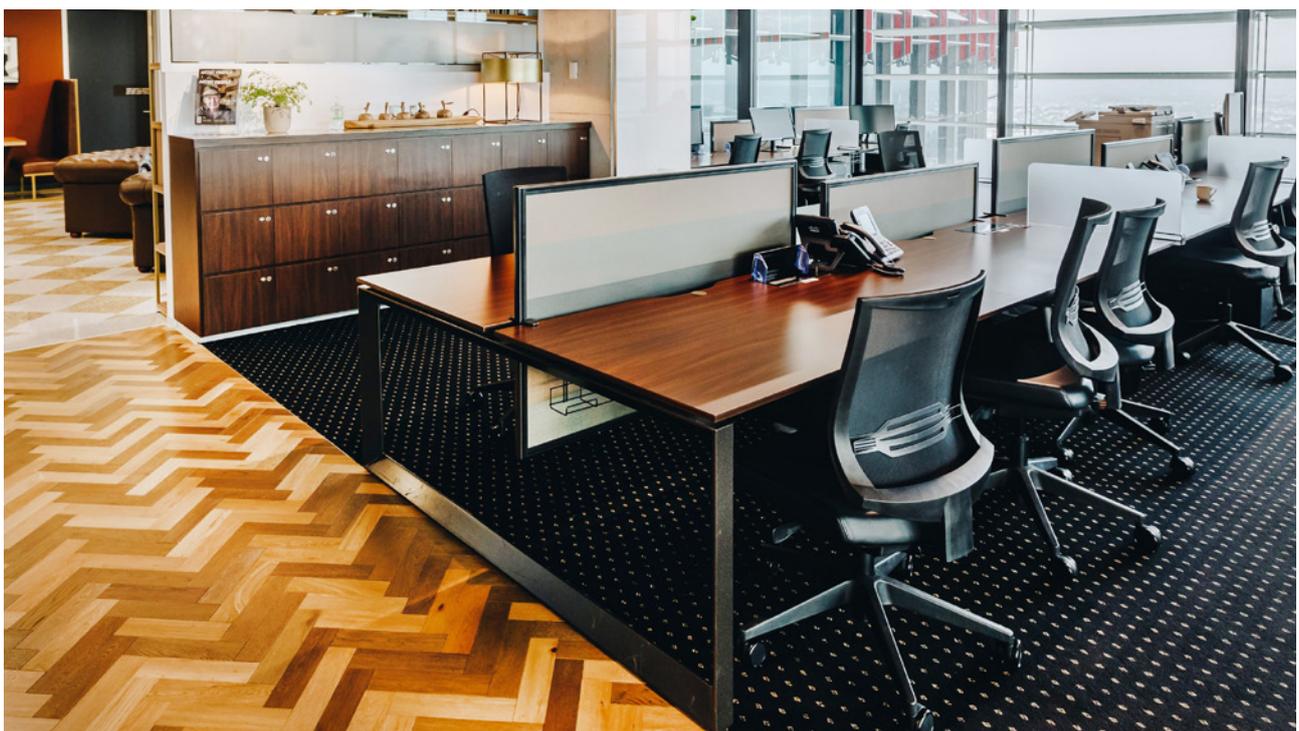

Hawk is OE Elsafe's smallest stainless steel lid floor box with a capacity of 4GPO or 6 Data/AV or Starters. Can also be supplied with 15A GPO. Hawk fits into raised floors requiring a 90mm trench and a screed depth of only 56mm.

# PROJECT GALLERY

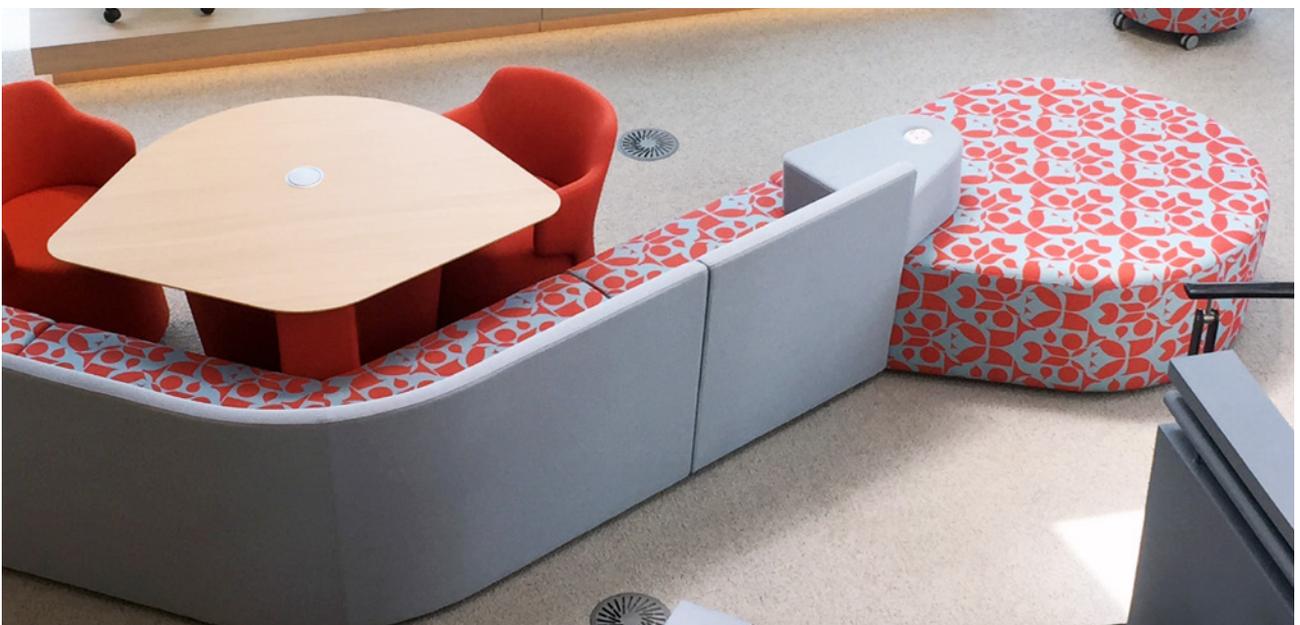

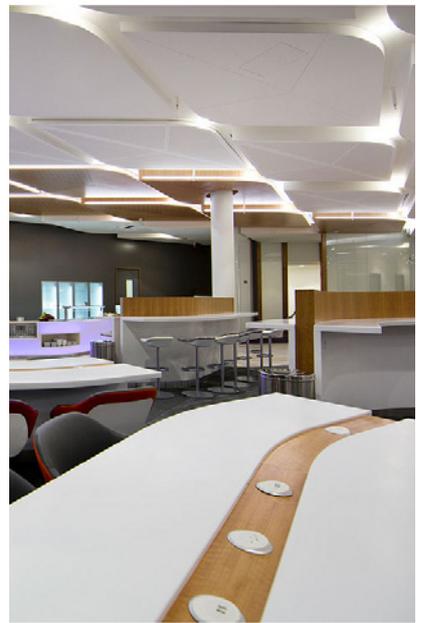

OE Elsafe have a long history of assisting clients to design and manufacture their own connectivity solutions, not just by reconfiguring our own products to suit a specific application but also by creating completely new products for their sole use, allowing them to find solutions in harmony with their own product ranges and projects.

Need a custom designed product? Speak with OE Elsafe's technical team to see what we can create for you.

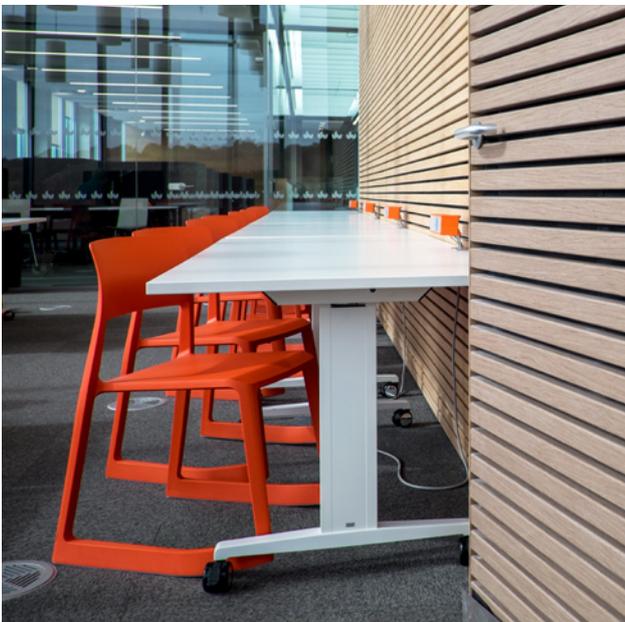

# PROJECT GALLERY

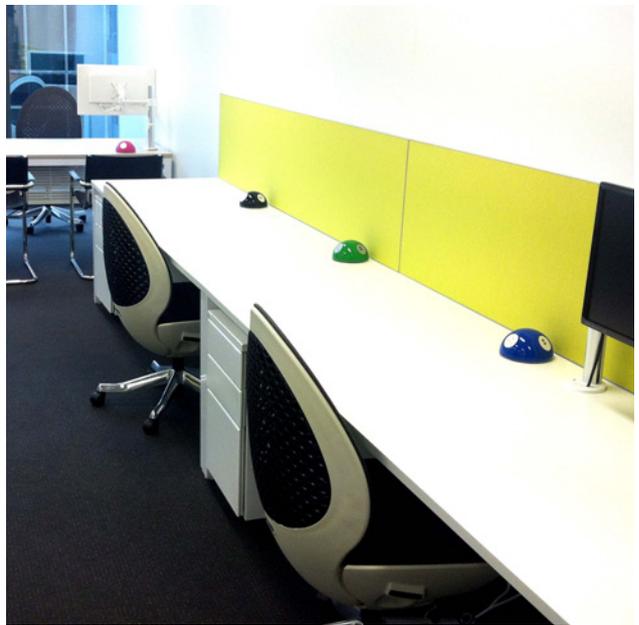

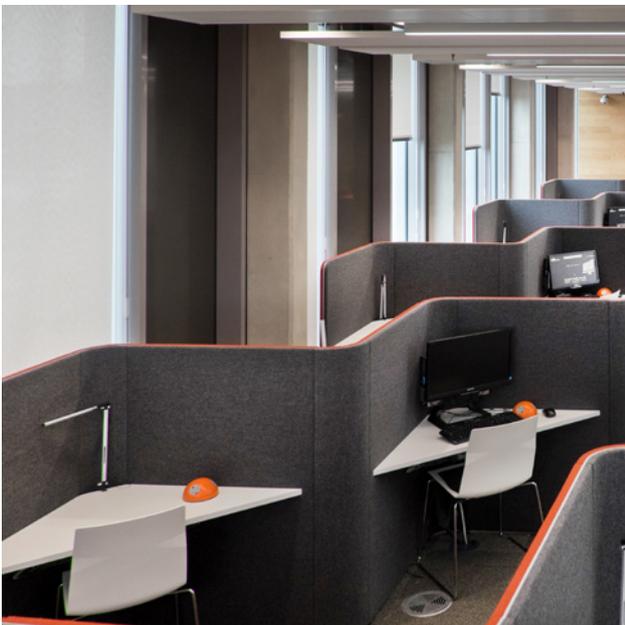

# PROJECT GALLERY

# PLUTO

Pluto brings life and colour to any interior space. Workstations, hot desks, meeting rooms and larger areas such as university galleries benefit from the pleasing aesthetics and practicality of Pluto. Pluto is available in black, white, or a range of colours.

# PROJECT GALLERY

# OE ELECTRICS GROUP

OE Elsafe have always led the way with cutting edge technology and innovation supplying the best and latest soft wiring solutions to local and increasingly overseas markets. The expansion that came with the increasing overseas demand meant OE Elsafe needed an overseas presence and hence we joined the OE Electrics Group.

Combining our technological expertise with OE Electrics who were also looking to increase access to international markets has seen both companies come together, grow and become world leaders in soft wiring technologies. The innovative products and technologies that have been so successful for OE Elsafe in Australia are now even more possible on a global level.

Together the OE Electrics Group are experts in designing and manufacturing power and data distribution solutions. We believe that innovation is essential to the success of every new design and solution and it's at the heart of everything we do from the products we design to the systems we use every day.

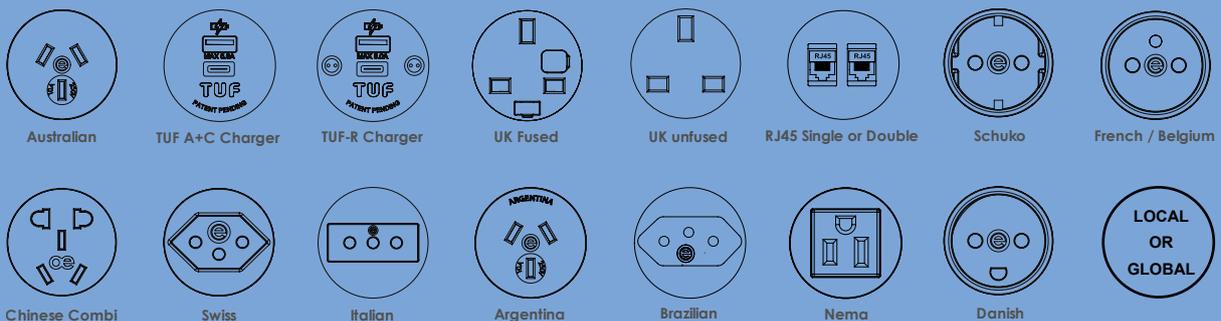

# GLOBAL CAPABILITIES

Good design incorporates technology seamlessly into the environment creating inviting workspaces that enhance collaboration and productivity. The OE Electrics Group lead the way in soft wiring technology working closely with industry partners to deliver the best solutions possible. These are some of the companies we have created solutions for.

## ANYWHERE INNOVATIVE TECHNOLOGY IS REQUIRED

## CABLE MANAGEMENT : SUPERFLEX

### loop to pin (C17)

Ideally suited for ceiling hung umbilicals either down to desk, screen or floor.

The loop attaches to a hook/eyebolt allowing the wire to be pulled tight and/or length adjustability.

### Pin to Pin (C21)

Predominantly for use between desk and floor – they are not length adjustable.

Stocked in 720mm lengths, however special lengths can be made to suit eg: height adjustable desking.
