

1. Power socket
2. Data position (with blank cap fitted)
3. Data position (with USB shown)
4. Retaining nut
5. 80mm grommet with silver finish

Elsafe's PIXEL design has been driven by the demand for a small accessible but discreet unit for the more discerning office worker. Fitting neatly into a standard 80mm cutout by means of a simple screw on nut (no need for tools!) PIXEL takes up almost no room at all. You may even forget it's there until you need it.

Cables from PIXEL can be fed directly into the desk's existing cable management allowing simple integration.

PIXEL will accept Ten+ different plug socket nationalities including UK, Schuko, French, Swiss, Australian and Chinese. With two data

apertures to facilitate RJ45, USB, Audio or HDMI, PIXEL will ease desktop connectivity by improving accessibility to power and data.

PIXEL's unique design and sweeping organic curves ensure better protection against liquid ingress.

fit my pixel!

To fit PIXEL into your desk couldn't be simpler. If your desk already has an industry standard 80mm hole simply take the fixing nut off your newly purchased PIXEL, feed the cables through the hole and gently slide your PIXEL into place. Make sure your PIXEL is facing the desired direction and screw the fixing nut back on until it is firmly in place. PIXEL will fit any surface from 1mm to 40mm.
