

PLUTO satisfies a demand for power and data connectivity, in informal spaces, in a way that no other module has done before. Perfectly suited to breakout areas, smaller meeting rooms, public spaces and anywhere power is needed.

PLUTO makes sharing power a pleasure. Studies show that people work far more effectively in small groups and indeed new ideas come from people working in pairs. With over 25 years experience in the market, and as leaders in terms of design and practicality, OE Elsafe have developed Pluto to match our customers' desire for a solution that fits these new ways of working.

With 3 outlet positions, PLUTO is perfect for a small team to power/charge their devices using conventional mains plugs.

Modular components for Pluto

Soft Wiring (power)

Power wired to Wieland GST connector allows starter cables to be changed to suit requirements, especially useful during moves and changes (CHURN)

Testing:

100% testing - continuity, polarity, insulation & earth

Rating

PLUTO with Wieland GST entry are rated to 20Amp

Insulation:

Reinforced insulation

Features

Configuration:

Power only / Data only / Combined (Power & Data/ AV) including TUF A+C fast charging. Pluto also fits the TUF-R replaceable charging socket for upgrading or replacing if damaged.

Internal segregation between Power and Data/AV in combined PLUTOs

Colours:

Pluto is available in black, white or a wide range of gloss colours. Pluto is also customisable with matt finishes or coloured patterns on request.
