

Firmware upgrade for BLUEEYE V9T2

The firmware is the operating system (OS) installed on the device. Firmware upgrades can bring new features, improvements and bug fixes.

Method 1:

Step 1, Copy 'install.img' to the root directory of a USB stick, and connect it to the USB HOST port of the player.

Step 2, Press and hold the **POWER** button on the back panel, and do not loosen.

Step 3, Plug the power cable into the DC IN jack, wait for about 5 seconds or more, and then loosen your finger on the **POWER** button; Firmware installation will start.

Method 2:

Step 1, Copy 'install.img' to the root directory of a USB stick, and connect it to the USB HOST port of the player.

Step 2, Enter **Setup** → **Misc** menu, select **USB Upgrade**, firmware installation will start.

Please download firmware follow below link.
