

FVT-1101 Version: 1

RJ45 to SC Fast Ethernet Media Converter, Multi-Mode Fiber, 1310nm, 2km

The FVT-1101 MMF SC media converter is able to convert network signals between copper and fiber-optic based networks. The converter provides a 10/100Base-TX RJ-45 port, supports full duplex and half duplex switch connectivity and 10Base-T and 100Base-TX auto-sensing. Used in multi-mode with fiber-optic cabling, this can extend a network range up to 2km. The converter can be used as a standalone device or as a slide-in module to the CHV-2000 19" Converter Chassis, which can accommodate up to 14 units for use in a central wiring closet.

Key Features

- Supports the transmission of extra-long packets up to 1.6KB
- IEEE 802.3x Flow Control protects against lost packets for reliable data transmission
- Multi-mode fiber with SC connector for transmission of up to 2km
- Supports low-time lag transmission
