

POI-2012, PoE Injector, PSE, 15.4W

Product Images

Short Description

- Remove the need for a bulky power adapter and power line
- Delivers power and data to equipment via a single Ethernet cable
- Built-in power supply
- Extends PoE connection for another 100 meters
- Unique interlocking feature for easy installation

Description

The LevelOne POI-2012 is a Power over Ethernet injector that not only delivers a cost-effective solution for power distribution, but also provides a seamless way of deployment on the existing LAN infrastructure. With the use of power injectors, DC power of up to 15.4W and the data that comes from a non-PoE switch are merged together and then transmitted to compliant products such as PoE dome cameras through the Ethernet cabling. Hence, preserving your investment in hardware upgrade without the need for buying extra PoE switches. Furthermore, non-PoE devices like wireless access points can also be powered up remotely by adding additional PoE splitters, since power and data are further split into two cables, therefore these devices may be installed in hard-to-reach areas like ceilings where there are no any outlets or electrical wiring nearby.

Additional Information

Operating humidity	5% RH ~ 95% RH
Operating temperature	0°C ~ 45°C
Indicators	Power, PoE
Mount	Wall mount
Pin assignment and polarity	4/5 (+), 7/8 (-)
Power Output	18W
Standards	IEEE 802.3 10Base-T, Ethernet IEEE 802.3u 100Base-TX, Fast Ethernet
Product weight (kg)	0,35
Color	Black
EAN	4015867221808
Model Number	POI-2012
Package Contents	POI-2012 Quick Installation Guide Power Cord
Gigabit RJ45	2
802.3af PoE	1
Grade	Commercial
Data rate	Fast Ethernet
Injector Port Type	Single Port
Data rate	10/100Mbps
Dimensions (W x D x H)	143 x 51 x 38 mm
