

Waterproof connector installation instructions

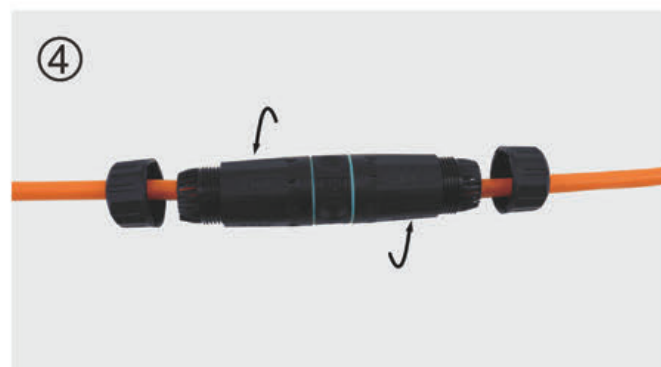

1. Accessories: 2 pcs End covers, 2 pcs Long tubes, 1 pc RJ45 Coupler, 2 pcs O-shape sealing rings, 2 pcs Waterproof sealing plugs.

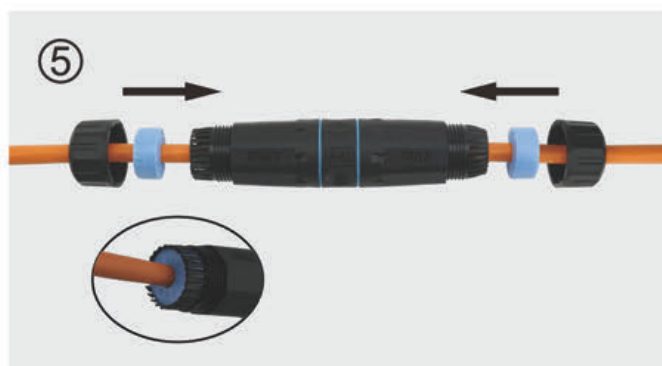

2. Passing the two cables through the end covers and the long tubes respectively.

3. Inserting the patch cords into the both ends of the RJ45 coupler.

4. Screwing the long tube tightly onto the RJ45 coupler as guided in manual.

5. Locking the two waterproof plugs on the cable, then put them into the end of the long tube. Note: The plug is engraved with the word "waterproof" on one side outward.

6. Screwing the end cover at both ends onto the long tube. Finally to check whether the waterproof plug is closely matched with the cables.
