

You deserve to feel safe, secure & protected™

Monitor your home wirelessly.

Watchguard 2020™ Standalone WiFi Security Camera

Model: ALC-CAM1

The Watchguard 2020™ standalone WiFi security camera is perfect for monitoring what's going on in your home, day or night.

The installation couldn't be easier. Simply turn on your camera, download the free App via QR code or the app store, add cameras, and you are connected to see and hear everything on your phone instantly.

The built-in HiFi microphone and speaker allows seamless communication between your phone and the camera, making remote conversation a breeze.

Share joyful moments with loved ones with one simple click, you can share (or revoke) your camera view with your family and friends and enjoy special moments together.

Included features:

- Quick and easy connectivity via WiFi quick link or QR code
- 5-megapixel lens and 720P HD video quality
- High-quality CMOS image sensor
- 110° wide viewing angle
- Smart control via smartphone app
- Records HD video (1280x720)
- Night vision via 10m
