

HIR434 Remote Control Extender

Operate or control your AV devices wirelessly

HIR434 Features Include:

- 5 Operate your Pay TV, CD, DVD/Blu-ray Player, CCTV Camera, Projectors or almost any AV device wirelessly from another room.
- 5 Compatible with Pay TV IR control signals.
- 5 Allows you to use original remote control from another room.
- 5 Simple to setup and easy to get working.
- 5 Wireless transmission passes Infra-Red signals through walls and over distances using 434MHz.
- 5 Delivers clear IR signals up to a range of 100 metres based on clear terrain.
- 5 Concealed high efficiency antennas — inside the receiver and transmitter.
- 5 Infrared emitter extender with self adhesive pad — sticks to AV device IR sensor window.
- 5 LED indicates IR transmission activity.
- 5 Weighted base optimises stability of vertical small footprint case.
- 5 Meets Low Interference Potential Devices (LIPD) class licence.

HIR434 Specifications:

IR RC Extender Transmitter

IR Operating Frequency: 433.92MHz ± 0.5 MHz
Power Required: 9V DC 100mA supply

IR RC Extender Receiver

IR Operating Frequency: 433.92MHz ± 0.5 MHz
Power Required: 9V DC 100mA supply

General

Transmitting Range: Up to 100m in open terrain

Accessories Included:

- 1 x IR RC Transmitter — with internal antenna
- 1 x IR RC Receiver — with internal antenna
- 2 x 9V DC 100mA power adaptors
- 1 x IR emitter extender with LED indicator
- 1 x User's manual
