

# Professional Access Control

## Product Reference Guide

Crucial evidence. Always.™

# Contents | VIP Vision™ Access Control Product Solution Guide

## 4 Access Controllers

Professional and compact body access control controllers with series highlights, specifications & system map.

## 8 Access Control Readers

Range of professional access control readers for indoors & out, in card, keypad and fingerprint reader models.

## 9 Access Control Accessories

Enrolment readers, 13.56MHz IC cards, electric door strikes, electric magnetic locks & door switches.

# Professional access control.

## Professional Series: Scalable IP access controllers for home & business

VIP Vision Access Controllers are the central component for your access control system. Take full control with user management, event logs, access period scheduling, alarm functions, CCTV integration and much more.

- Store up to 100,000 valid cards & 150,000 records
- Supports RFID card, fingerprint and keycode
- TCP/IP network interface for configuration via PC
- RS485 & Wiegand 34 communication protocols
- Door time-out, intrusion, duress and tamper alarms
- Anti-passback, multi-door interlock, multi-card open
- Support 128 efficient time and holiday schedules
- Watchdog timer to prevent system malfunctions
- Sturdy wall-mounted metal casing (*ACCON-2P only*)
- Backup battery extension (*Sold separately*)

Managed Access Control

Up to 32 Devices Per Controller

Configure via Smart PSS

# Centrally managed.

Take control with powerful & free organisational tools.

The free VIP Vision SmartPSS PC application serves as the management platform for your access control system. It includes a range of professional access control tools, and it facilitates CCTV surveillance integration.

- Configure users, departments & user access rights
- Photo ID and card / fingerprint enrolment hub
- View & import/export comprehensive attendance records & alarm logs (intrusion, unclosed door, etc.)

# Feature rich access.

Scalable & customisable professional access control.

VIP Vision access control delivers security from small to large premises. Cascade up to 255 slave controllers for over 2000 total door capacity. Precisely define access use with a range of customisation options, including:

- Set first unlock card before granting access to others
- Inter-door unlock & multi-door interlock prevents simultaneous door access in clean rooms, airlocks, etc.
- Anti-passback to prevent shared or stolen access to high security areas, eg: secure parking lots
- Door timeout warning to prevent tailgating
- Duress cards in case of emergency

# Video verification.

Integrate professional surveillance to your access control.

Verify legitimate access use by integrating VIP Vision CCTV surveillance alongside your access control system. VIP Vision SmartPSS offers combined use of CCTV & access control, enabling real-time monitoring and linked video to access control alarm events.

- Integrate CCTV surveillance systems on the same network as your access control system
- Link CCTV video surveillance to access alarm events including tamper, intrusion, door unclosed, duress alarm and blacklist events

## Access Controllers | Series Specifications

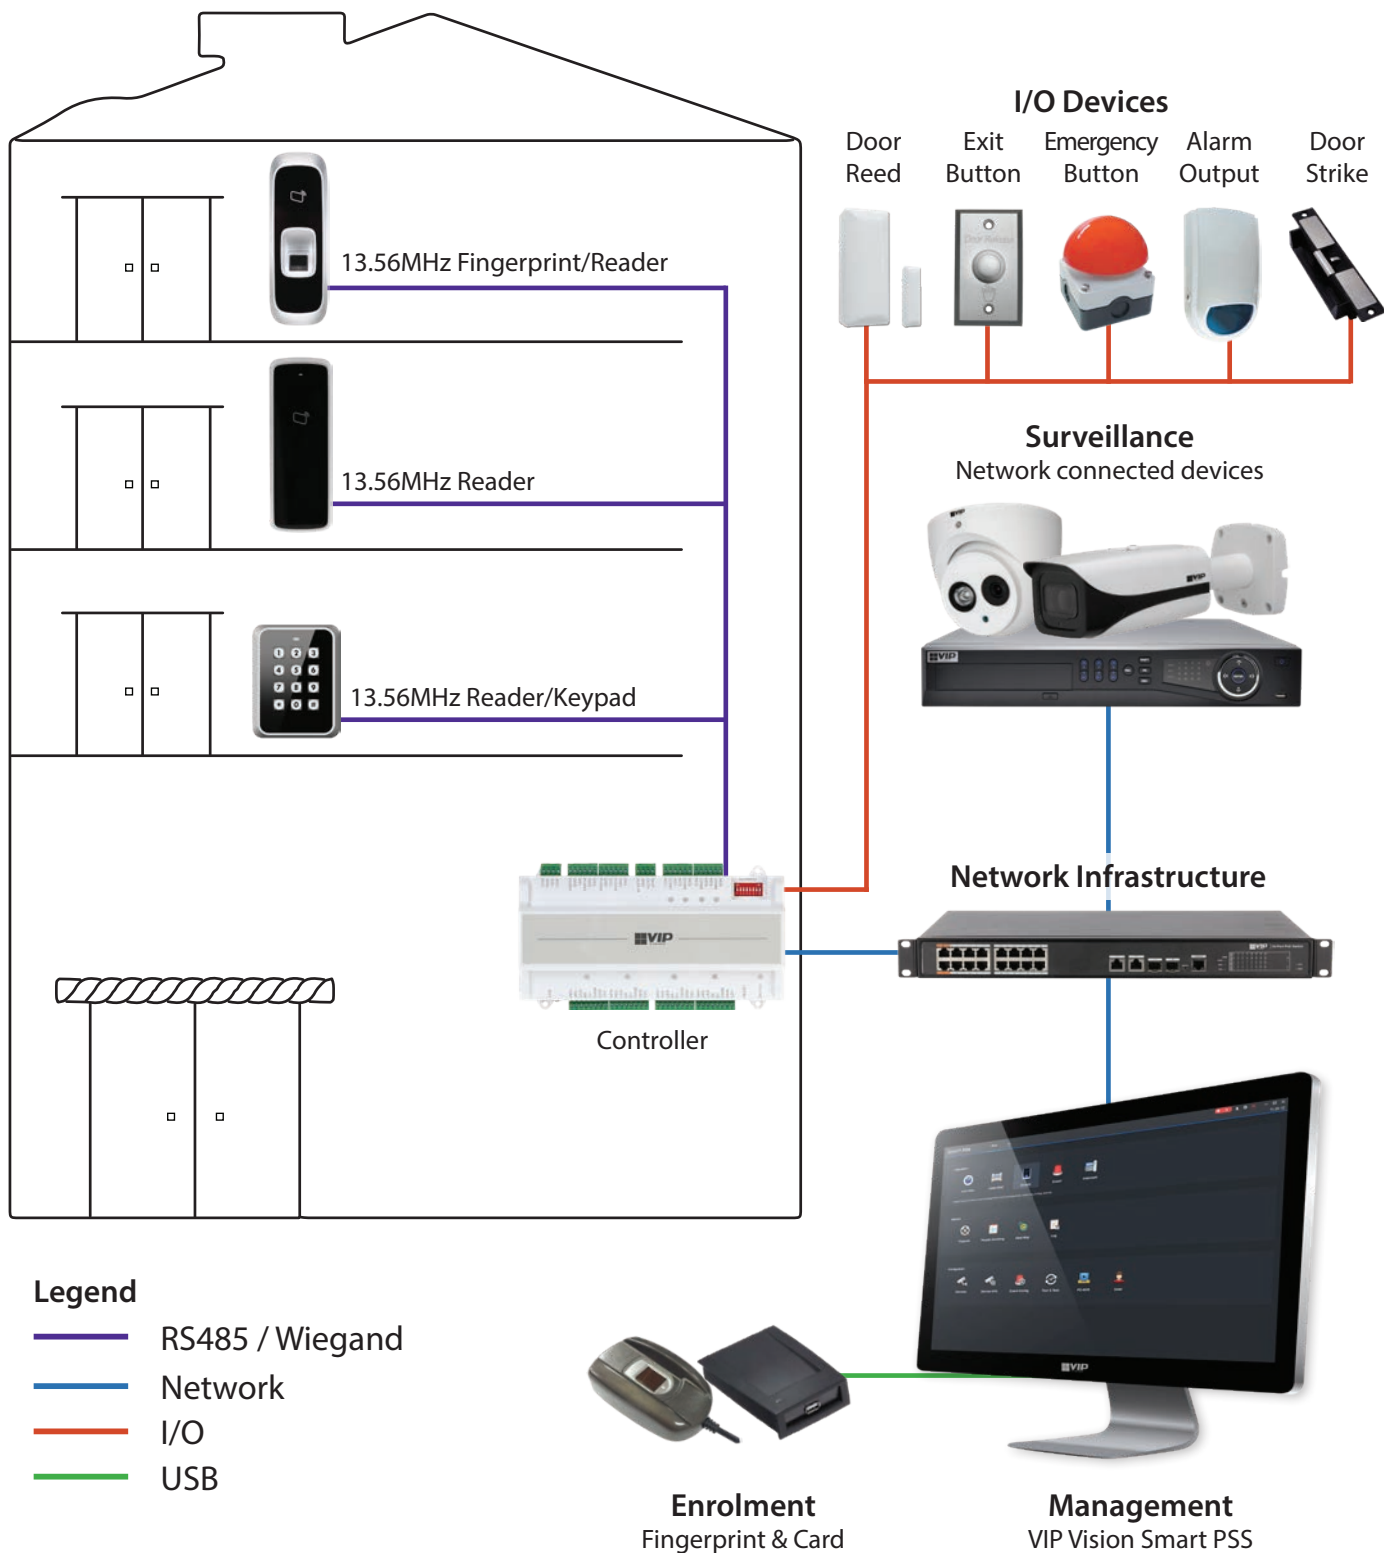

Model	ACCON-2P22	ACCON-2P41	ACCON-2P42	ACCON-2C41
<b>Image</b>				
<b>Name</b>	2 Door Two-way Access Control Panel	4 Door Access Control Panel	4 Door Two-way Access Control Panel	4 Door Access Controller
<b>Input Ports</b>	8 (2 x door sensor; 2 x exit button; 4 x alarm input)	9 (4 x door sensor; 4 x exit button; 1 x alarm input)	20 (4 x lock state; 4 x door sensor; 4 x exit button; 8 x alarm input)	9 (4 x door sensor; 4 x exit button; 1 x alarm)

## Access Controllers | System Map

VIP Vision Access Control systems integrate door control, user management, real-time video and time attendance. The all-in-one system can be customised to meet the needs of small to large businesses.

See an example system architecture below, with optional CCTV and alarm integration.

# Elegant & versatile readers.

## Professional Series: Access control card, keypad and biometric readers

Professional Series access control readers deliver a smooth access experience in a range of elegant designs. Customise your access control system & add multiple layers of security with card, keypad and fingerprint readers.

- Gain access via card, fingerprint scan or keycode
- Mullion mount, touch button & metal button models
- Connect and configure with PC via ethernet cable
- RS485 & Wiegand 34 communication protocols
- Elegant and professional design with black finish
- Tamper switch & alarm alerts across the range
- LED indicators and backlights for low light use
- Weather & vandal resistance (*varies by model*)

Multiple Unlock Options

High Visibility LED Backlight

Access Control Readers | Accessories

**NFC Card Enroller  
ACENR-2C**

This USB-powered device registers RFID cards into your access control system, and is required to use all RFID scanners in the range.

**13.56MHz NFC Cards  
ACKEY103**

10 pack of thin 13.56MHz RFID (NFC) proximity cards for access control systems.

**Fingerprint Enroller  
ACENR-2F**

This USB-powered device registers fingerprints into your access control system, and is required to use the ACRDR-2SFC.

**13.56MHz NFC Keyfob  
ACKEY104**

13.56MHz RFID (NFC) proximity keyfob with keyring for access control systems.

## Accessories | Electronic Door Strikes

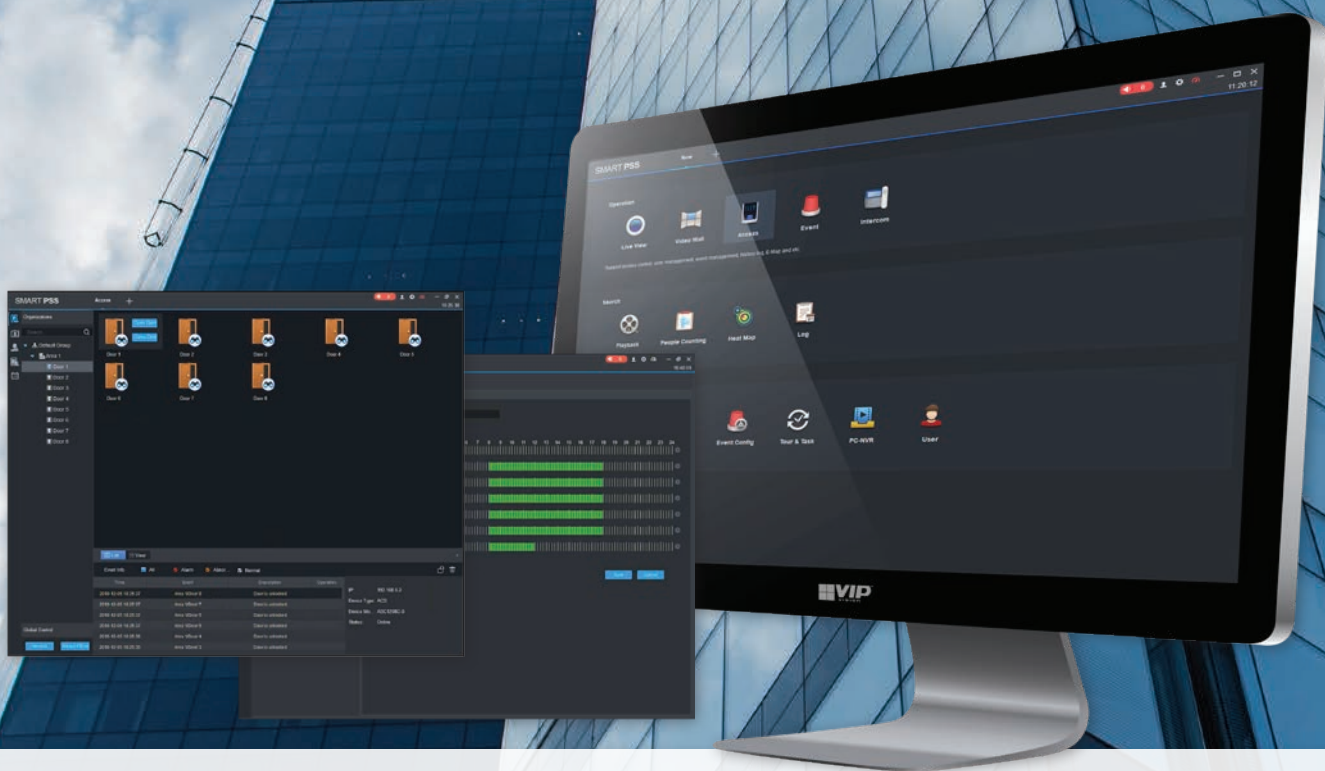

Model	ACLOC100	ACLOC101	ACLOC102	ACLOC103	ACLOC104
